

A Two Day National Conference on “Advances in Modeling, Manufacturing and Materials Engineering” (NCAMMM- 2K18)

A two day National Conference on “Advances in Modeling, Manufacturing and Materials Engineering” (NCAMMM- 2K18) has been inaugurated with marvelous presence of more than 250 participants from various Institutions/research centers across the country are gathered at Vignan’s Foundation for Science, Technology and Research (VFSTR) Guntur on 18th August 2018. This conference is organized by the Department of Mechanical Engineering in a way to share various innovative ideas, exchange new information among experts, young scholars and researchers.

The chief guest of the conference is Dr. S. Karunanidhi, an outstanding Scientist and director of Control system lab (DRDO), Hyderabad and the other delegates of the conference are Dean R&D Dr. G. Srinivas Rao, Dean IQAC Dr. M Ramakrishna, Mechanical HoD Dr. L. S. Raju and the Convener for this Conference Dr. K.V.R of VFSTR University have inaugurated the two day conference by lighting of lamp. In this regard, the Convener for Conference Dr K.V.R has shared his views on advantages of conducting conferences in Institutions. In addition to that the Dean R&D Dr G. Srinivas Rao, Dean IQAC Dr M Ramakrishna and Mechanical HOD Dr L. S. Raju shared their views on information related to Mechanical Engineering department, available research facilities and recent ongoing research at VFSTR Guntur.

The Chief guest of the inaugural function Dr. S. Karunanidhi gave a Keynote Lecture on “Aerospace Product development by Precision engineering”. His lecture covered Introduction to Precision Engineering, Evaluation Technologies, Electro-Hydraulic Systems (Flapper nozzle servo valve), Precision Manufacturing, Sustainable Engineering and Addictive Manufacturing.

Lighting of the lamp by distinguished guests.
