## Field Visit on Raft Foundation

The Department of Civil Engineering, Vignan's Foundation for Science, Technology & Research, organized a field visit to the Annapurna Block construction site beside Vignan LARA to observe the reinforcement detailing of a raft foundation. The visit provided students with practical exposure to reinforcement layout, bar spacing, anchorage, and structural detailing involved in raft slab construction.

During the visit, Dr. P. Rakesh and Mr. K. Bala Gopi Krishna explained the placement of bottom and top reinforcement mesh, spacing between bars, cover requirements, and the structural behavior of raft foundations used for heavy load-bearing structures. They also highlighted the importance of proper compaction, alignment checks, and quality control measures to ensure durability and structural safety.

Students actively participated by measuring reinforcement spacing, identifying bar diameters, and observing the detailing practices followed at the construction site, helping them connect theoretical design concepts with real-time construction practices.

They gained insights into challenges faced during execution and the coordination required between engineers and site workers. This visit significantly enhanced students' understanding of foundation engineering, structural detailing, safety protocols, and site execution practices, which are part of their upcoming structural design syllabus.

**symposium on Rights, Justice and Action**

Vignan Institute of Law is organizing an symposium on “Rights, Justice, and Action for All Women and Girls” on March 6, 2026. The event will feature Dr. Rayapati Sailaja, Chairperson of the Andhra Pradesh State Women’s Commission, as the chief guest. The program will be held at Saregama Seminar Hall.
