(Estd. U/s 3 of UGC Act 1956)

Vadlamudi, Guntur Dist., A.P., India – 522213

3.3.2 : Number of workshops/seminars conducted on Research methodology, Intellectual Property Rights (IPR), entrepreneurship, skill development during the year 2021-22

S.No	Name of the workshop/seminar	P.No
1	The art and science of startups and Role of Academic Incubators & Funding Opportunities to Student & Faculty Startups	2-3
2	Innovation & Entrepreneurship Development Center	4-18
3	"Role of IP in the Innovation & Entrepreneurial Driven New Indian Economy" & Entrepreneurship as a Career Choice	20-23
4	Innovate for Menstrual Waste Hackathon – 2022	24-29
5	A Session on achieving problem solution fit and market product fit	30-34
6	Session on " Innovation and prototype validation-Converting Innovation into a startup "	35-48
7	Virtual seminar on "IPR AWARENESS PROGRAM and Special emphasis on Computer Related Inventions (CRI)"	49-63
8	EDP on "Development of Infrastructure and technology for processing of tender coconut water and tender coconut meat".	64-69
9	Virtual seminar on IPR awareness by Indian patent office, Chennai	70-79
10	Virtual seminar on IPR awareness by Indian patent office, Chennai	80-86
11	Virtual Workshop on patent Drafting Techniques for Faculty and Research Scholars	87-91
12	EDP on "Improved post-processing technology for tender coconut water and coconut meat for socioeconomic development of local venders".	92-98
13	EDP on "Development of Infrastructure and technology for processing of tender coconut water and tender coconut meat".	99-103
14	Egnition2k21 For Budding Entrepreneurs	104-111
15	Workshop on prototype development and mentorship	112-116
16	EDP on "Development of Infrastructure and technology for processing of tender coconut water and tender coconut meat".	117-125
17	"STARTUP HOUSE" Auditions	126-130
18	Unemployed Youth Training Program on Manufacturing and Welding Technologies- Foundation Level	131-136
19	Unemployed Youth Training Program On Electronics Home Equipment Testing and Trouble Shooting-Foundation Level	137-141
20	Unemployed Youth Training Program on Electrical Home – Foundation Level	142-147
21	Unemployed Youth Training Program on CNC Foundation Level	148-153

### Program Report:

The Vignan's Foundation for Science, Technology, and Research's Institute of Innovation Council (IIC) & Entrepreneurship Cell (E-Cell), conducted webinar on "The art and science of startups" on 15<sup>th</sup> July 2022, at Sangamam seminar hall. The guests are Mr. Kashyap Kompella, Head of Startup Incubation & Strategic Innovation, Head Trade Tower, Woxsen University from 2.00pm to 3.30pm, and Dr. K Raja Sekhar, Professor in the Department of CSE, Associate Dean for CIIE, KLEF (Deemed to be University) on Role of Academic Incubators & Funding Opportunities to Student & Faculty Startups from 3.30pm to 5.00pm.

### **VIGNAN'S FOUNDATION FOR SCIENCE, TECHNOLOGY AND RESEARCH**

(Estd. U/s 3 of UGC Act 1956) Vadlamudi, Guntur Dist., A.P., India-522 213

The event has been conducted through the Zoom Platform, where guests have attended online and Joined 100 participants through online mode. The event covered two major topics such as The art and science of startups by Mr. Kasyap Kompella and the role of academic incubators and funding opportunities for student and faculty startups by Dr. K Raja Sekhar. The majority of the participants were faculty members and students.

Ms. Krishna Prasanna Morumpudi gave insights about Team E-Cell and introduced the guest to the participants. Mr. Kashyap Kompella initiated the session by briefing about the reason for the buildup of a startup and the various opportunities associated with it. It differentiated between what is a unicorn and tables that need to be turned to help elevate a startup to a unicorn. The session went on in an interactive way between the participants and the guest. Startup building can be an advantage and a necessity for an engineer, which is what has been showcased by the guest. Mr. Kashyap discussed the focus and support being offered by various governments, financiers, angel investors, etc. Finding the right investor and supporter is the most important aspect of launching a successful startup. The guest displayed various outcomes and insights about startups and unicorns, and ended the topic with "The Art and Science of Startups."

Dr. K. Raja Sekhar took over the session at 3.40 pm and started discussing the various roles of incubators provided. He has discussed and compared the types of incubators provided to ideators and innovators. Incubation is a perfect place and time to learn, develop, nurture, and excel with an idea. These kinds of benefits will be lacking in the real-time market. Incubation not only provides a space for budding entrepreneurs but also gives them the right amount of resources to make them aware of real-life challenges.

At last, there was a Q&A session, and a few questions were put forward by the members of the team. One of the questions is "how to find the right curriculum for students who are aspiring to become entrepreneurs." Finally, the event has resulted in significant changes in the innovators, faculty members, and students, providing them access to many new concepts and making everyone aware of their own potential for innovation. This event has caused people to understand the necessities required for innovation to turn into reality.

**VIGNAN'S FOUNDATION FOR SCIENCE, TECHNOLOGY AND RESEARCH**

(Estd. U/s 3 of UGC Act 1956) Vadlamudi, Guntur Dist., A.P., India-522 213

Finally, Dr. B. Nageswara Rao, Director IES & Convenor IIC thanked both the guest and their wonderful insights on the art and science of startups and Role of Academic Incubators & Funding Opportunities to Student & Faculty Startups. We thanked each and every one for making this event happened, our special note to our collaborators, MHRD's Innovation Cell, Institution's Innovation Council, AICTE.

#### **Program Report:**

The Entrepreneurship Cell and Institute of Innovation Council (IIC) of the Vignan Foundation for Science, Technology & Research (Deemed to be University) in association with School of Computing, hosted **Research Conclave '22: Exchanging Futuristic Ideas for Innovative Research** on 8<sup>th</sup> and 9<sup>th</sup> July 2022. Major objective of this event is to ignite the spark of interest on Research in the minds of students and to inculcate research culture in academic approach and to foster Research linkages with Industry.

Eleven Eminent researchers from academia and industry across the Nation were invited as speakers to this event. The event includes 9 technical sessions and a panel discussion on "Futuristic Ideas for Innovative Research". The total number of participants are 195 including students and faculty. The event started with a brief inaugural session and Prof. K Chidananda Gowda, Former Vice-Chancellor, Kuvempu University was invited as a chief-guest for the inaugural session. Dr P Nagabhushan, Honorable Vice-chancellor, Cmdr. Raghunadhan, Registrar, Prof. Venkatesulu Dondeti, Dean school of computing and HoD, CSE, Prof. K V Krishna Kishore, Dean Technology Development and HoD, IT addressed the participants during the inaugural session.

#### **Report on Day-1 Sessions:**

The first session was on "Research Avenues in Block Chain Technologies" by Prof K Chidanda Gowda, Former Vice-Chancellor, Kuvempu University. The speaker emphasized on how block chain technologies could be a future technology across various domains. The second session was on "Introduction to EEG and Its Applications to Neuro-Marketing" by Dr. Partha Pratim Roy, Associate Professor, CSE, IIT Roorkee. During this session, the speaker enlightened participants on the difficulties involved in acquiring EEG signals and analyzing the EEG signals for various applications with a special emphasis on Neuro-Marketing. Pre-lunch session was on "Explainable AI: Current Status and Future Directions" by Dr. Sonali Agarwal, Associate Professor, Dept of IT, IIIT Allahabad. Speaker introduced various futuristic opportunities in the field of artificial intelligence. Following session was on

**VIGNAN'S FOUNDATION FOR SCIENCE, TECHNOLOGY AND RESEARCH**

(Estd. U/s 3 of UGC Act 1956) Vadlamudi, Guntur Dist., A.P., India-522 213

“Research Opportunities in Machine Learning (Philosophical Views on Challenges and Avenues)” by Dr. D.S. Guru, Professor ,Chairman, Department of Studies in Computer Science, University of Mysore. He emphasized on how to convert the problems we observe in the day-to-day life into research problems. The last session of Day-1 was on “Interesting AI / ML Research Problems in EdTech Domain”, by Dr. R. Pradeep Kumar, Chief Innovation Officer, Amphi Ventures, Coimbatore. He explored the scope for research in EdTEch domain and how E-box is using the technology for providing better learning experience to the students and Faculty.

**Report on Day-2 Sessions:**

The first session on Day-2 was on “Deep Learning Models for Text, Image and Video Processing” by Prof. C Chandra Sekhar, Professor, CSE, IIT Madras. This session was a walkthrough of various neural network models from the simple feed forward networks to the recent transformer models. The speaker emphasized on the challenges involved training the deep neural network models along with their applications across various domains and associated open research problems.

The next session was on “Target class mining in distributed environment” by Dr. Sanjay Kumar S, Assistant Professor, Department of CSE, ITER, Siksha 'O' Anusandhan (SOA) Deemed to be University. The following session was on “SAFE Artificial Intelligence” by Dr. Krishna Pratap Singh, Associate Professor, Dept of IT, IIIT Allahabad. The last technical session was on “Clinical Decision Support System for Healthcare Applications” by Dr Dinesh M.S, Senior Scientist, Philips Research (India).

In addition to the above technical sessions there was a Panel Discussion on “Futuristic Ideas for Innovative Research” which was moderated by Prof. P. Nagabhushan, Honorable Vicechancellor. Panellists for the panel discussion includes all the above speakers along with Dr. Timothy A. Gonsalves, Professor Emeritus (Hon.) and Founder Director, IIT Mandi and Prof. R Subramanian, Department of Computer Science and Engineering, Indian Institute of Technology Roorkee, India, participated in the panel discussion. Each panellist shared their perspective on the topic.

The programme was closed by a valedictory session for which Dr. D.S. Guru, Professor and Chairman, Department of Studies in Computer Science, University of Mysore was invited as a chief guest. Dr P Nagabhushan, Honorable Vice-chancellor, Cmdr. Raghunadhan, Registrar, Prof. Venkatesulu Dondeti, Dean school of computing and HoD, CSE attended the valedictory session and appreciated the organizers for organizing the research conclave which helps in igniting the fresh minds towards research.

**IP in the Innovation & Entrepreneurial Driven New Indian Economy**” on 25<sup>th</sup> June 2022, at Sangamam seminar hall. The guests are Dr. H Purushotham, DPIIT-IPR Chair Professor & Former CMD NDRC Govt of India from 2.00pm to 3.30pm, and Mr. Ravi Eswarapu, CEO, Andhra University Incubation Hub handled the session on Entrepreneurship as a career choice from 3.30pm to 5.00pm.

Dr. B. Nageswara Rao, Director-IES and convenor of IIC, has started the event and invited Dr.G. Srinivasa Rao Dean R & D and President of IIC to give the opening remarks of the webinar. Total 78 participants from both VFSTR and other institutes have joined through online zoom. the session was handled by Dr. H Purushotham Garu with his insights about the Intellectual property and how it has been a drastic effect on the Indian economy and also the importance of it, and he also gave a correlation between IPRs and GDP, in the later part an idea on how the IPR is a bridge between Academia and Industry has been displayed. A discussion on the UNICORNS of India with respect to the innovations on which these have been built, Dr. H. Purushotham gave examples of Successful University IP Commercialization. About 78 participants were joined through zoom from various streams. Finally, the webinar ended with a Q&A round.

Mr. Ravi Eswarapu continued the seminar on the topic Entrepreneurship as a career choice, he gave many insights on how the young generation is giving up on their start-ups, and he addressed that we can create a successful start-up by teaming with a healthy-minded people. Mr. Ravi has addressed the seminar on the **type of start-up (ie good, bad, ugly)** and expressed the problems faced by the young generation after starting the start-up, late various insights on how the incubation can help the young generation to start a successful business has been put forward. Finally, the webinar ended with a Q&A round where Mr Amal joy, Founder of Stryde Food tech Pvt., Ltd. Interacted and acquired the guidance about sustainability.

Finally, Dr. B. Nageswara Rao Convenor IIC thanked both the guest and their wonderful insights on IPR and Entrepreneurship as a carrier choice. We thank each and everyone for making this event happen, our special note to our collaborators, MHRD's Innovation Cell, Institution's Innovation Council, AICTE.

## INNOVATE FOR MENSTRUAL WASTE HACKATHON - 2022

@ VIGNAN'S FOUNDATION FOR SCIENCE, TECHNOLOGY & RESEARCH

**OPEN FOR ALL :**

- Students (Engineering/ Medical/ Humanities & Arts)
- Working Professionals
- Home-makers
- Self Help Groups
- NGO
- High School Students
- Inventors

**Theme :** Safe management of menstrual waste in adolescent health and hygiene (Technology solutions / Product solution / Systems & Processes)

**Eligibility Criteria :** Each group (1-3 members), must have atleast 1 female participant

**Pre-Final Prize Awards**

1	Prize	Rs. 10000	2	Prize	Rs. 5000	3	Prize	Rs. 3000
---	-------	-----------	---	-------	----------	---	-------	----------

**Rewards**

Final top 3 teams will receive rewards totaling Rs. 1.5lakh & mentorship with the water Aid.  
Other top innovative solutions will reward totaling with 2 lakh & mentorship with TSIC and ecosystem.

Participants must submit PPT / Poster and 3 min recorded Video send to : [stu\\_ecell@vignan.ac.in](mailto:stu_ecell@vignan.ac.in)

#### **Program Report:**

The Entrepreneurship Cell and Institute of Innovation Council (IIC) of the Vignan Foundation for Science, Technology & Research (Deemed to be University) in collaboration with Telangana State Incubation Cell and Water Aid, hosted the Innovate for Menstrual Waste Hackathon 2022. The guests included both external and internal as Mr. Abdul Vaheed Basha, Project Associate, LEPR, State office Vijayawada (i.e Associative branch of Water Aid India), A.P. Dr. D. Vijaya Ramu, Dean Promotions, Collaborations & Faculty affairs and Dr. B. Nageswara Rao, Director Innovations Entrepreneurship & Startup activities (IES), VFSTR Deemed to be University. Innovate for Menstrual Waste Hackathon 2022 programme and a turnout of 34 teams leads presented. The participants have registered for three of the categories put up by the Telangana State Innovation Cell (TSIC). Majority of them being Inventors, Students, working professionals, Home Makers, etc., Majority of the faculty members had expressed interest in the Menstrual Waste Hackathon.

Dr. D. Vijaya Ramu, Dean Promotions, collaborations & Faculty affairs has inaugurated the session with his valuable words, later Dr. B. Nageswara Rao, Director IES, gave his insights about the session and uplifted the participants' energy. The hackathon has started with displaying various ideas and innovations brought up by various students, faculty members and home makers from across the country. This was an ice breaking session which was conducted both online as well as offline and has brought a vast change in the mindsets of people through menstrual health and the proper discharge of these waste materials. Participants have put up ideas relating to product development such as Natural rubber based sanitary products, Sanitary pads made from recycled face masks, Banana stalk based sanitary pads, Polymer made out of Bamboo Sticks, Cloth diapers. The latter category of hackathon has focused on Technological solutions for environment safety towards which we have innovations relating to green menstruation, Safe Waste management using a red dustbin. In the final category we have seen ideas for Plastic waste which can be used for constructing tar roads, Waste towards manufacturing of Sound-proof walls, Incubation of waste material generated, Bioplastics technique in decomposition of Sanitary pads. All the ideas showcased their

specialty in their particular category. It was a tough call for the judges to come up with discussions and questions.

Finally, the event has brought a great change in the innovators, gave access to many new concepts and has made everyone to realize their potential towards innovations. This event has made people to understand the necessities required for an innovation to turn into reality. The pre-final prize winners will be rewarded And then final top 3 teams will receive reward totaling Rs. 1.5 Lakh & Mentorship with the Water Aid. The other top innovative solutions will receive rewards up to 2 lakh & mentorship with TSIC and ecosystems.

Honorable Vice chancellor Prof. P. Nagabhushan interacted with the prize winners and distributed the certificate of merit and cash prize for all the winners.

**Internal Judges as follows:**

1. Dr.N. Satya sree , Professor, S & H
2. Dr.Anand Goswamy, Assoc.Prof, S & H
3. Dr.Abhinav Parashar, Asst.Prof, BT
4. Dr. Shubhalakshmi Sengupta, Asst.Prof, S & H
5. Dr. Anjani Devi Chintagunta, Assoc.Prof, BT
6. Dr. Vineela, MBBS, VFSTR

**External Judge:**

Mr. Abdul Vaheed Basha, Project Associate, LEPR, State office Vijayawada

**Prize winners:**

1st Prize: Grade Nullified

2nd prize (Rs.5000/- cash and certificate of appreciation)

Shaik Nadiya (Research Scholar-BT), Ch. Shanmukh and Sandip kumar yadav

3rd Prize (Rs.3000/- Cash and certificate of appreciation) is Awarded to two groups

3.1 S. Siksha (3BT), T. Sharmila and G. Anusha

3.2 A. Pavani Priya (3BT), G. Aditya Varma and D. Srujana Reddy

**Program Report:**

The Entrepreneurship Cell and Institutions of Innovation Council (IIC) of the Vignan Foundation for Science, Technology & Research (Deemed to be University) was organized a A Session on achieving problem solution fit and market product fit on 16<sup>th</sup> May 2022, at VC's Conference hall by Mr.T.N.B.Prakash, Director-CoE, Dept of Mech.Engg.,VFSTR.

Dr. B. Nageswara Rao, Director-IES and convenor of IIC, has started the event and invited Mr.T.N.B.Prakash, Director-CoE,Dept of Mech.Engg.,VFSTR for a titled session. The total 27 were participated including research scholars and faculty members.

**Innovation & Entrepreneurship Development Center**

**VIGNAN'S FOUNDATION FOR SCIENCE, TECHNOLOGY AND RESEARCH**

(Estd. U/s 3 of UGC Act 1956) Vadlamudi, Guntur Dist., A.P., India-522 213

The seminar is started by Mr. Bhanu Prakash regarding the problem solution fit and market product fit and the research outcomes. The basic contents in this session include the details and the importance about steps involved and methodologies through the research. It may may be the best-known tool for group idea generation and is widely taught in gifted and talented programs. Many empirical studies have been conducted regarding the effectiveness of this kind of sessions, and they have provided useful insights into the salient barriers facing groups who use these practices.

Although a great deal of this literature focuses on the limitations of various methods, the exploratory study included in his presentation sheds light on approaches that can enhance the value of this tool by examining the impact of the facilitator's role within group idea generation.

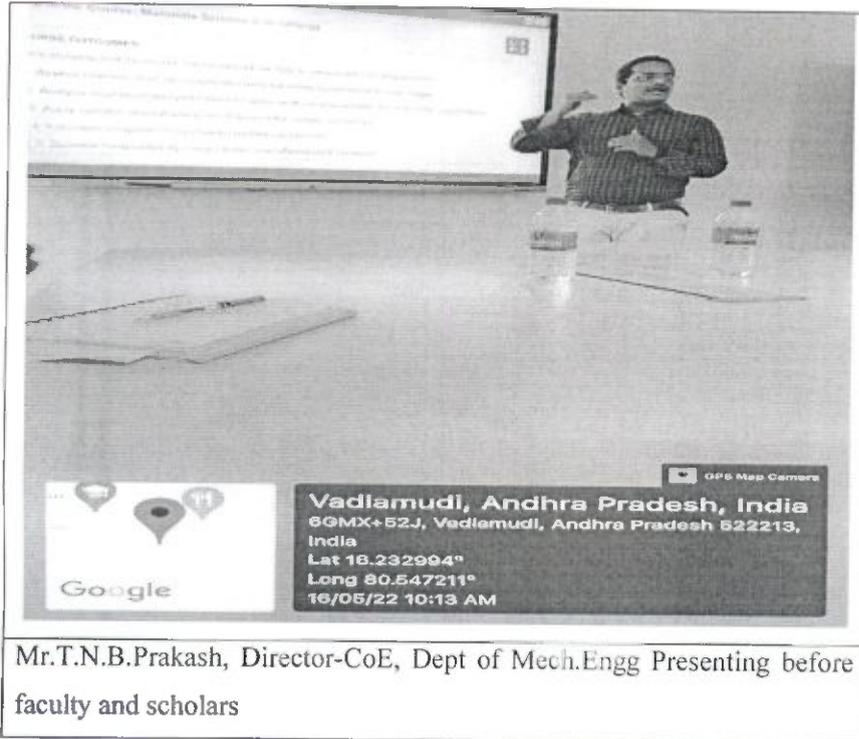

Finally, the Board meeting was ended with a Q&A round and Dr. B. Nageswara Rao thanked both the guest and their wonderful insights on the brain storming session on research outcomes and help to understand the importance in carrier choice and the support from the VFSTR management and Ministry of Education. Also appreciated the efforts made by team E-Cell towards successful of conduction of the session.

session on “Innovation and prototype validation-Converting Innovation into a startup” involving Eruvaka technologies. Eruvaka Sreeram Raavi is the founder and CEO of Eruvaka Technologies. 441 students from various departments have attended.

The guest started to energize the students. He started his session by giving a presentation about the ups and downs of his life. He encouraged the learners to be vigilant and to have an open mind to new ideas. To be a true entrepreneur, you must think and give your mind time to think. He also advised the pupils to be mindful of what they enjoy doing. He encouraged students to be cautious about what they were doing. Giving the best to society is always more important than money. One must be constant in their innovation and they should not give up hope and don't believe what others say. And focus on your objectives; money will never bring you true happiness. Building a team, providing products, and having satisfied and trustworthy consumers can provide you with true satisfaction. He was never interested in money. He also suggested observing carefully, striving to understand the problems, and trying to entrepreneur and invent so that they could sell in global markets. Every crop in India represents a multibillion-dollar possibility. One must be aware of the primary issue at hand and work to resolve it. He also talked about some technologies. Here are some. Harvesting robots are the future that you can imagine in order to innovate. One of the most important aspects is the harvesting of chillies. These are the issues that require patience to fix. Drip irrigation can also be automated to guarantee that the plant receives the proper amount of water to produce a decent harvest. He concluded his presentation by proposing a few novel suggestions.

Finally, here is a crucial component for all of the attendees at the meeting. One of the most significant aspects of growing up as an entrepreneur is developing innovative skills. The session ended on a positive and productive note. At the end guest speaker felicitated by dignitaries of the university.

As a vote of thanks Dr.B.N.Rao appreciated the efforts made by Team E-Cell for successful conduction of this program and support given by Dr. Lavu Rathaiah Chairman, Sri Lavu Sri Krishna Devarayulu, Vice Chairman, Prof. P. Nagabhushan Vice Chancellor of

**VIGNAN'S FOUNDATION FOR SCIENCE, TECHNOLOGY AND RESEARCH**

(Estd. U/s 3 of UGC Act 1956) Vadlamudi, Guntur Dist., A.P., India-522 213

The resource person of this seminar was Ms. Preeti Meena who finished his M. Tech from IIT Kharagpur in CSE. This seminar basically to create the basic awareness among the students of Computers Science students of VFSTR Deemed to be University, few sections selected in coordination with the heads of the departments of IT & CSE, Prof.K.V. Krishna Kishore and Prof.D. Venkatesulu and the identified students advised to register for this program. about 558 students registered across the 10 sections and the program started with the introduction of E-Cell by the Director IES of VFSTR Dr.B. Nageswara Rao and the guest profile preceded by the E-Cell student member the speaker has covered the following areas and enlightened the participated students. where 485 students were attended at Department of CSE & IT Halls.

Ms Meena, the resource person of this session spoke about the importance of Innovation, and Intellectual parameters for CSE Students and explained in a lucid way that the difference between research paper publication and patent.

She explained the approaches and procedures for patent filing. Ms. Meena suggested the importance of scope for patenting in smartphone features like Samsung galaxy and illustrated another example as smart helmet which was patented in US. She has thrown a light on section 3(K), of patent act 1970. Till Nov 2016 novel hardware was mandatory to grant a patent but after 2017 amendment, software implementation with hardware not mandatory to get patent granted. If an invention has a technical solution to a technical problem and has a technical advancement then it is eligible for grant. As a vote of thanks, organizers thanked the management and heads of the departments and faculty of both CSE and IT who coordinated and executed the sessions.

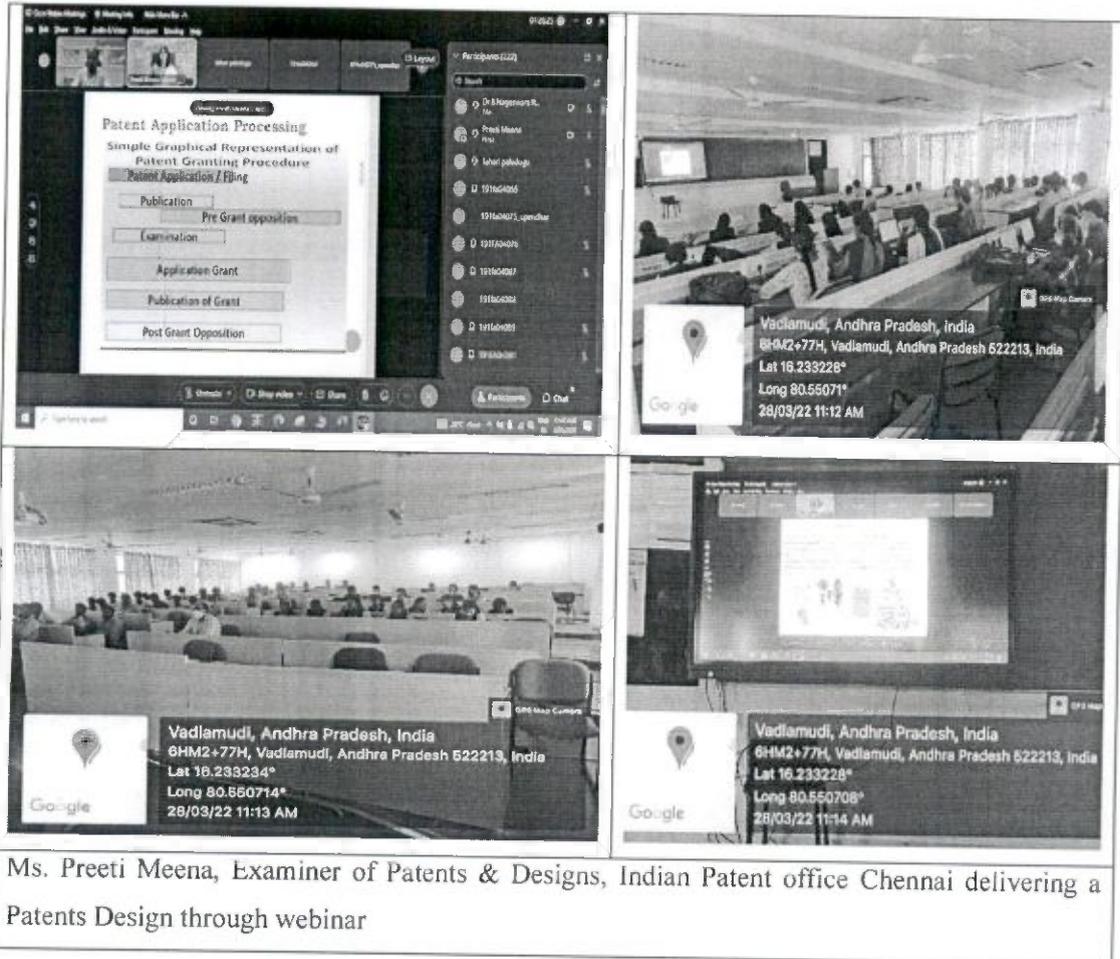

As a vote of thanks Dr.B.N.Rao appreciated the efforts made by Team E-Cell for successful conduction of this program and support given by Dr. Lavu Rathaiah , Chairman, Sri. Lavu Sri

Krishna Devarayulu, Vice Chairman, Prof. K. V .Krishna Kishore Vice Chancellor (i/c), Commodore Dr. M. S. Raghunathan, Registrar of VFSTR, deans and heads of the departments and media support.

**Program Report:**

The Entrepreneurship Cell and Institute of Innovation Council (IIC) of the Vignan Foundation for Science, Technology & Research (Deemed to be University) in association with NRDC Organized Entrepreneurship Development Program (EDP) on, "Development of Infrastructure and technology for processing of tender coconut water and tender coconut meat" from 16<sup>th</sup> March,2022 to 18<sup>th</sup> March,2022 carried the Training and technology transfer to local farmers, venders and bakery professionals.

This training is completely dedicated to the farmers, local venders and bakery professionals, and 37 participants were trained according to the following schedule:

**Training: Day wise training plan is given below**

**Day 1: GMP, GHP and FSSAI regulation:**

FSS act, vender registration process for FSSAI, good handling practices (GHP) for venders, GHP and GMP for coconut water.

**Day 2: Quality and safety of coconut water and Research Scope:**

At home/ in the absence of a laboratory: by observing the appearance of the product and by noting the smell

In the laboratory: by chemical testing, by monitoring the physiochemical properties and by microbiological testing

**Day 3: Hands on training:**

Training on operating semi-automatic and fully automatic machine for coconut meat extraction machine, training on various value-added product from coconut water and coconut meat.

Thilak.Vadicherla who finished his M. Tech. He was twice awarded prestigious "Textile Institute, Manchester, UK". This seminar basically to create the basic awareness among the students of first year engineering of VFSTR Deemed to be University, few sections selected in coordination with the head of the department of S & H, Prof.N Srinivasu garu and the identified students advised to register for this program. about 363 students registered across the 10 sections and the program started with the introduction of E-Cell by the Director IES of VFSTR Dr.B. Nageswara Rao and the guest profile preceded by the E-Cell student member and 249 students attended at Sravanthi Seminar Hall, the speaker has covered the following areas and enlightened the participated students.

Speaker mentioned the importance of Innovation , Imagination and Intellectual parameters are key to begin. IP can create every field...like Technology, music, dance, food, Software app etc., Resource person asked most popularly used Social Media Apps.eg. Facebook earning more revenue since it Was IP Protected also explained the importance of IP with company logos. Displayed some illustrations the ways of earning money including the difference between common man and business man., types of Patents etc.,

As an example of Australian patent he has shown cricket stumps design which ICICI uses and Illustrated design category patents. Mr. Tilak suggested the importance of copyrights before posting in the social media, Once you get copyrights then it's suggested to Post in social media platforms.Taken apple laptop and explained the parents categories involved in it. The best patent holder and wheelchair from Jaipur drawing inspiration from the scientist wheelchair about 9 year old boy who has invented a game of 6 player circular chess the boy name hridayeshwar Singh Bhati.

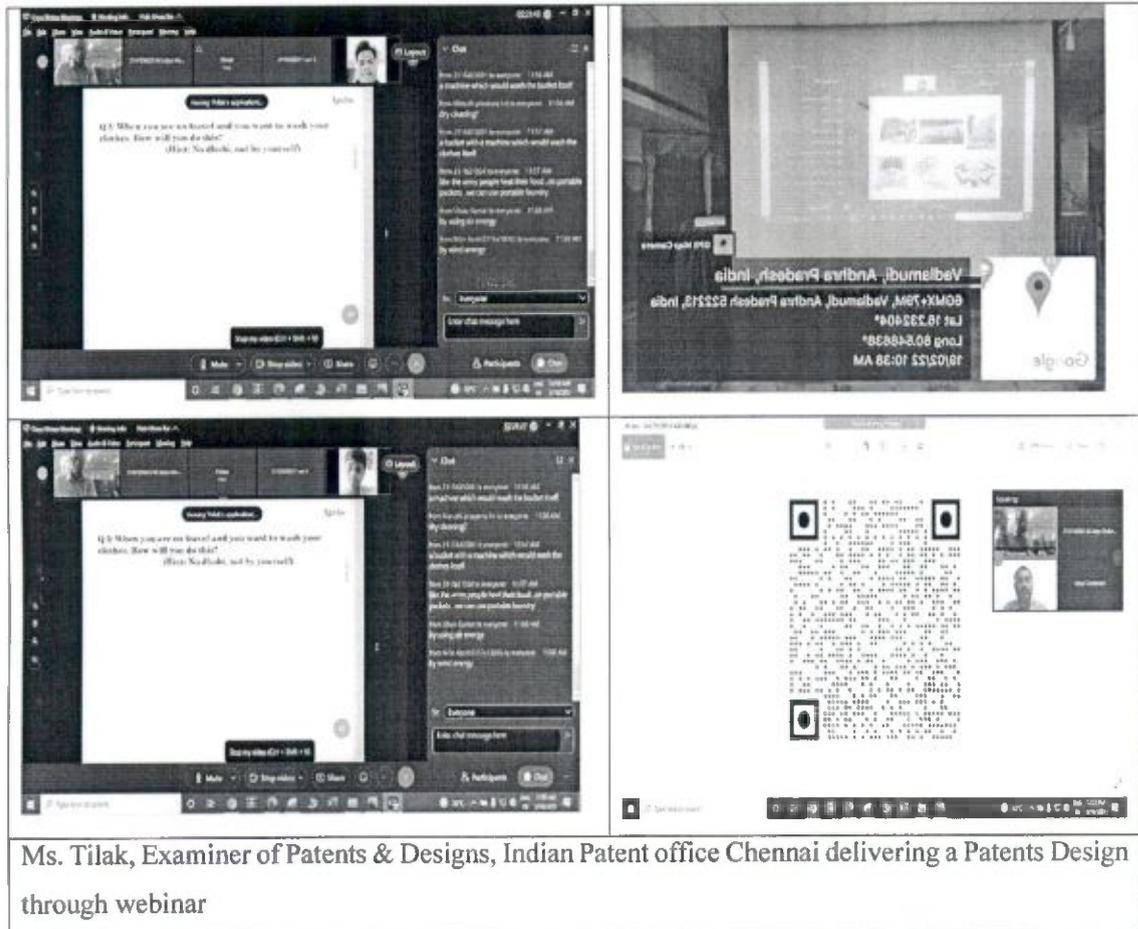

As a vote of thanks Dr.B.N.Rao appreciated the efforts made by Team E-Cell for successful conduction of this program and support given by Dr. Lavu Rathaiah Chairman, Sri Lavu Sri Krishna Devarayulu, Vice Chairman, Prof. K. V. .Krishna Kishore Vice Chancellor (i/c), Commodore Dr. M. S. Raghunathan, Registrar of VFSTR, deans and heads of the departments and media support.

This seminar basically to create the basic awareness among the students of first year engineering of VFSTR Deemed to be University, few sections selected in coordination with the head of the department of S & H, Prof.N Srinivasu garu and the identified students advised to register for this program. about 263 students registered across the seven sections and the program started with the introduction of E-Cell by the Director IES of VFSTR Dr.B. Nageswara Rao and the guest profile preceded by the E-Cell student member the speaker has covered the following areas and enlightened the participated students of 156.

Mr.Tilak has motivated all the young engineers towards an interest about intellectual property rights and its importance including its role in the nation building. In fact this time Ministry of Education, Govt. of India is encouraging the filing of patents of any idea/ design /trade secret or Copyright through the initiatives like KAPILA etc.,he narrated with a great example, a boy of about 10 years old who identified in alternate to the fracture bandage after that he has clearly explained the most important forms to file the patents like form 1, 2, 3, 5 18, and 26 before filing any patent one must have little idea about all this type of forms. Also explain the government initiative towards an encouragement of patents, in this direction the fee also drastically reduced when compared to the last 10 years. The fee structure filing the patent for various categories was illustrated at the end he has conducted QUIZ in the place of question and answer session where he has shown some IP category related items and asked the students to respond. all the IP category related figures and the program was went on successfully. The students were also responded for all the questions in a proactive way finally the resource person of the session appreciated all the participants, the venue facilities and the student volunteers also thanked the management coordinators of the program.

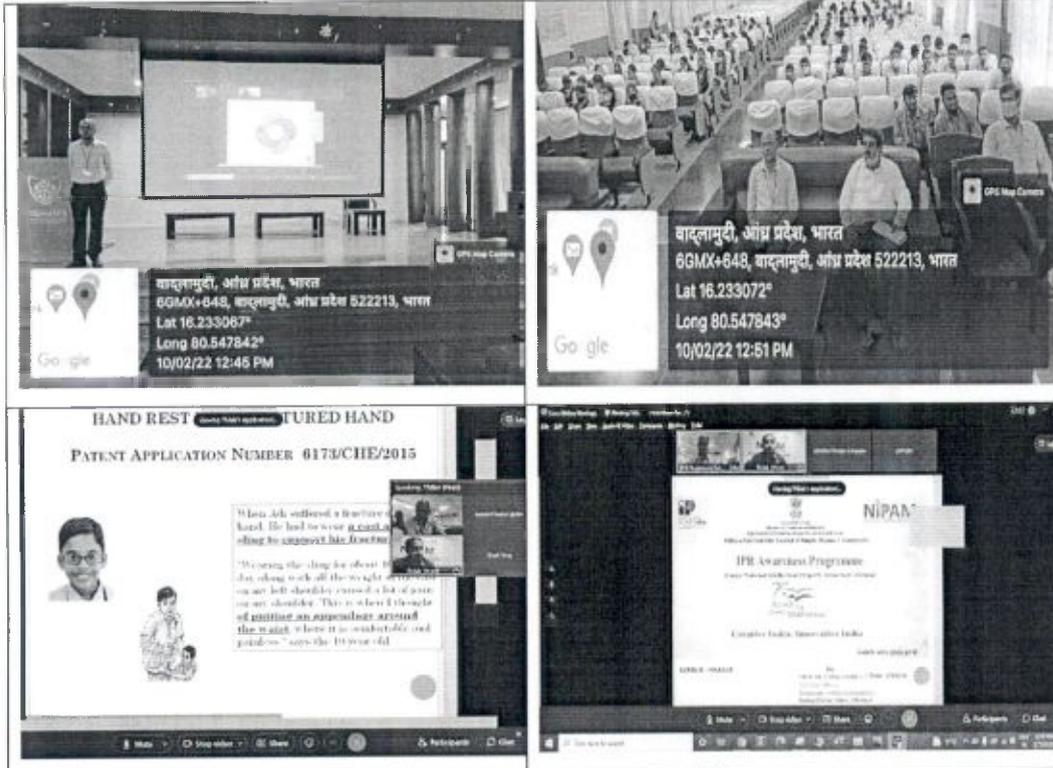

Finally as a part of vote of thanks the Director IES, Dr. Nageswara Rao thanked the resource person for his enlightened session to all the fresh engineers in the area of basics of IPR also thanked the Dr.N.Srinivasu , H.O.D, S & H for their continuous support and encouragement ,last but not least the top management of University for their continuous support.

#### Program Report:

The Entrepreneurship Cell and Institutions of Innovation Council (IIC) of the Vignan Foundation for Science, Technology & Research (Deemed to be University) was organized a Virtual Workshop on patent Drafting Techniques for Faculty and Research Scholars on 08<sup>th</sup> January 2022 from 11.00AM to 12.30PM at Sangamam Seminar Hall (i.e Blended Mode). The resource person of this workshop was Bindu Sharma, Founder & CEO, Origin IP Solutions, Bangalore. who advises clients on the issues related to Patents, Patent Validity, Infringement, Licensing and Monetization as well as IP Management, IP Strategies, Licensing, Trademark, Copyright and Design/Utility patent matters. She has extensive experience as a patent lawyer appearing in Appellate board and High Courts in patent infringement cases.

(Estd. U/s 3 of UGC Act 1956) Vadlamudi, Guntur Dist., A.P., India-522 213

The program started with the introduction of E-Cell by the Director IES of VFSTR Dr.B. Nageswara Rao and the guest profile preceded by the E-Cell student member the speaker has covered the following areas and enlightened the participated faculty and research scholars. where 45 participants were joined at the Seminar Hall.

Speaker mentioned the importance of Innovation , research idea to carry forward the patenting level. The techniques like prior art search and the online search techniques were briefly explained with case wise narration. Before any new invention can be patented, extensive research must be done to ensure the idea is unique, said patent and trademark attorney Bindu Sharma in her webinar session. The inventor has to be mindful of inventiveness and industrial use of his/her creation so that it can be patented.

As a vote of thanks Dr.B.N.Rao appreciated the efforts made by Team E-Cell for successful conduction of this program and support given by Dr. Lavu Rathaiah Chairman, Sri Lavu Sri Krishna Devarayulu, Vice Chairman, Prof. K. V .Krishna Kishore Vice Chancellor (i/c), Commodore Dr. M. S. Raghunathan, Registrar of VFSTR, deans and heads of the departments and media support.

#### **Program Report:**

The Entrepreneurship Cell and Institute of Innovation Council (IIC) of the Vignan Foundation for Science, Technology & Research (Deemed to be University) in association with NRDC organized Entrepreneurship Development Program(EDP) on “Improved post-processing technology for tender coconut water and coconut meat for socioeconomic development of local vendors” from 14<sup>th</sup> December,2021 to 16<sup>th</sup> December, 2021 at Food Technology Laboratory for entrepreneurs and local vendors.

the training was given to local vendor and to the VFSTR Students who are willing to start own business in the field of food processing. The selection of persons was done based on their interest in the field. In this phase the more focus was on giving the details on starting up a business based on coconut product. The major topic covered during sessions are on documentation, certification and audits in food industries. The registration of few businesses was also done during the training program and FSSAI registration was also done to the participant. Apart from these the program was included with following contents from day to day.

#### **Day 1: GMP, GHP and FSSAI regulation:**

##### **Training: Day wise training plan is given below**

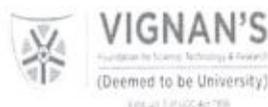

FSS act, vendor registration process for FSSAI, good handling practices (GHP) for vendors, GHP and GMP for coconut water.

#### **Day 2: Quality and safety of coconut water and Research Scope:**

At home/ in the absence of a laboratory: by observing the appearance of the product and by noting the smell

In the laboratory: by chemical testing, by monitoring the physiochemical properties and by microbiological testing

#### **Day 3: Hands on training:**

**Innovation & Entrepreneurship Development Center**

(Estd. U/s 3 of UGC Act 1956) Vadlamudi, Guntur Dist., A.P., India-522 213

Training on operating semi-automatic and fully automatic machine for coconut meat extraction machine, training on various value-added product from coconut water and coconut meat.

Day 3: Exploring the Market Potential of Coconut Products. documentation, certification and audits in food industries

Later the participants were also asked to put up the developed material from coconut on display. The participant took this positively and also did market survey for the same. Even efforts were made to sell the product and take the real consumer feedback of same products. According to the survey the coconut ice cream was observed as one of the best products among all other products. The highest request was made for the coconut ice cream only. Later the coconut cookies and coconut cream were in demand of consumers. Within few hours the participants were able to dispatch all the developed products among consumers.

In this phase of training 37 participants were enrolled from program successfully finished the training programme.

Following is the core team involved during the program:

<b>Name</b>	<b>Designation</b>
Dr. Sandeep Singh Rana	Project Co-ordinator, Assistant Professor (FT)
Mr. Lokesh	Assistant Professor, (AE)
Dr. Ayyanna S.	Assistant Professor, (AE)
Dr. Payel Ghosh	Assistant Professor (FT)
Dr. Syed Irshaan	Assistant Professor (FT)
Dr. B.Nageswara Rao,	Director, (IES), VFSTR
Ms. Mohana Munshi	Assistant Professor (FT)
Mr. Rajesh	Lab Technician

As a vote of thanks Director IES thanked the participants and NRDC for Financial Funding to this Program. Also thanked the Team E-Cell and department of Chemical engineering for dedicated efforts towards making this program successful.

### Innovation & Entrepreneurship Development Center

#### VIGNAN'S FOUNDATION FOR SCIENCE, TECHNOLOGY AND RESEARCH

(Estd. U/s 3 of UGC Act 1956) Vadlamudi, Guntur Dist., A.P., India-522 213

#### **Program Report:**

The Entrepreneurship Cell and Institute of Innovation Council (IIC) of the Vignan Foundation for Science, Technology & Research (Deemed to be University) in association with NRDC organized Entrepreneurship Development Program (EDP) on , “Development of Infrastructure and technology for processing of tender coconut water and tender coconut meat” from 25<sup>th</sup> November,2021 to 27<sup>th</sup> November, 2021 at Food Technology Laboratory for lab technicians and Faculty.

In the training program the teams were made of faculties and lab technicians. These teams were made to train them in the processing of tender coconut. The teams were also useful to check the efficiency of desirables and this phase was made for internal candidates only. So many professors, Lecturers, technicians and scholars joined the program with enthusiasm. In this phase the focus was more on technical and research scope of coconut product. In comparison to making of business from them. Many technical sessions were organized by the members and very few laboratory sessions were carried out during this session.

The external participants were limited and focus was more on technical and research part of tender coconut processing. Following is the schedule followed during the training program for first batch, the batch strength was 20 faculty and Staff members.

#### **Training: Day wise training plan is given below**

#### **Day 1: Novel and Future Research on Coconut including GMP, GHP and FSSAI regulation:**

FSS act, vender registration process for FSSAI, good handling practices (GHP) for venders, GHP and GMP for coconut water.

#### **Day 2: Quality and safety of coconut water extension of shelf life of coconut water and other coconut products:**

### Program Report:

The Entrepreneurship Cell and Institute of Innovation Council (IIC) of the Vignan Foundation for Science, Technology & Research (Deemed to be University) has teamed with M/S Vihaan Electrix (VE). Shri N. Venkata Reddy, Founder, and CEO of the Vihaan Electrix, Visakhapatnam, A.P. have been our guest for the event on 16<sup>th</sup> November 2021. This event attracted a considerable crowd. Our E-Cell Director has been invited along with the President

of E-Cell and Team members to the lamp lighting event and thereby inaugurated the event at sharp 3.15PM at Sravanthi seminar hall.

During opening remarks, Director E-Cell spoke about the Motto of this kick start session called E-gnition 2k21 For Budding Entrepreneurs, which is to foster an entrepreneurship culture among young minds of this varsity also explained the facilities available for incubation and start-ups including Global MoU's and Financial support by VFSTR Management and other angel investors. Mr. Reddy started his discussion online through Microsoft Teams, through which he immediately began to energize the students. He began his session by giving a presentation in which he compared service and product and how to identify a service and product in our daily life, as well as Engineering 4.0. Mr Reddy has thrown a light on Team building with likeminded people when are in campus along with time management, financial management and logistics management etc., He also provided information on how to start a business, how to get initial capital, and how to approach other individuals about starting a business. He ended his presentation with a Q&A session. A few students inquired about digital marketing and engineering 4.0. He finished by answering their questions. Later on, some playful diversions took place. Total 198 students from VFSTR have been participated across all the disciplines.

As a vote of thanks Dr.B.N.Rao appreciated the efforts made by Team E-Cell for successful conduction of this program and support given by Dr. Lavu Rathaiah Chairman, Sri Lavu Sri Krishna Devarayulu, Vice Charman, Prof. K.V.Krishna Kishore Vice Chancellor (i/c), Cmdre. D.M.S.Raghunathan, Registrar of VFSTR, deans and heads of the departments and media support.

#### **Program Report:**

The Entrepreneurship Cell and Institutions of Innovation Council (IIC) of the Vignan Foundation for Science, Technology & Research (Deemed to be University) was organized a Workshop on prototype development and mentorship on 13<sup>th</sup> November 2021 from 2.00PM to 6.00PM at APSSDC Skill development center, VFSTR. The resource person of this workshop was Mr Sushant Patro, Free Lancer, Visakhapatnam.

The program started with the introduction of E-Cell by the Director IES of VFSTR Dr.B. Nageswara Rao and the guest profile preceded by the E-Cell student member the speaker has covered the following areas and enlightened the participated students. where 49 students from different disciplines attended.

Speaker mentioned the importance of Innovation, research idea to carry forward the product through prototype. Interacted with all the innovators and asked their requirements to take forward the innovation. He explained the business plan tips and lean canvas representation to particular business activity.

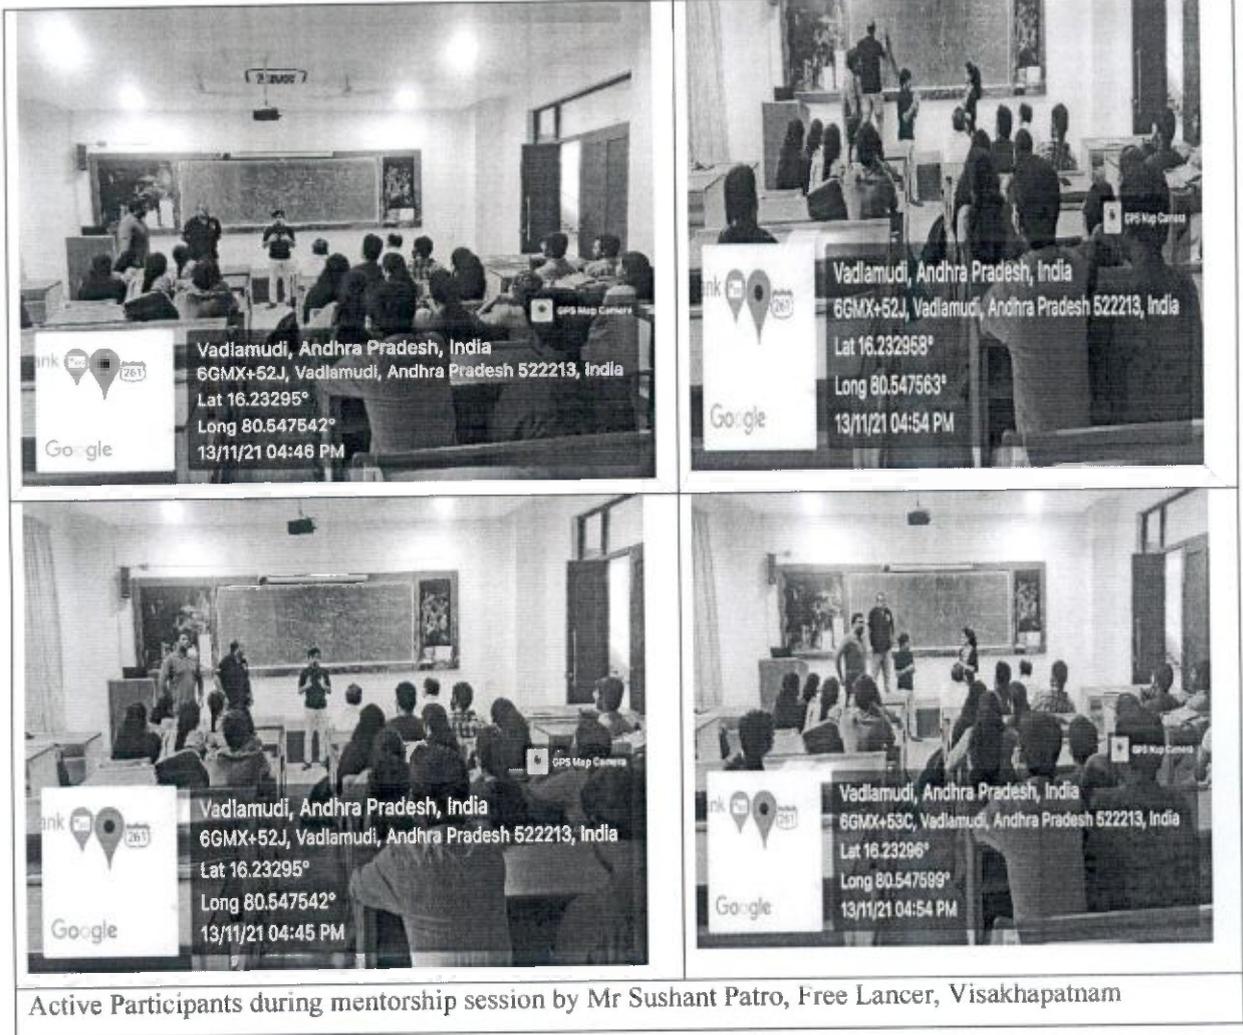

Remaining mentors taken the session and discussed regarding the prototyping and skills required to develop the innovative idea to startup.

As a vote of thanks Dr.B.N.Rao appreciated the efforts made by Team E-Cell for successful conduction of this program and support given by Dr. Lavu Rathaiah Chairman, Sri Lavu Sri Krishna Devarayulu, Vice Chairman, Dr, M.Y.S Prasad, Vice Chancellor, Cmde. Dr. M. S. Raghunathan, Dr. G. Srinivasa Rao, Dean R & D and all the heads of the departments.

**Program Report:**

The Entrepreneurship Cell and Institute of Innovation Council (IIC) of the Vignans Foundation for Science, Technology & Research (Deemed to be University) in association with NRDC organized Entrepreneurship Development Program (EDP) on, "Development of Infrastructure and technology for processing of tender coconut water and tender coconut meat" from 7<sup>th</sup> October, 2021 to 09<sup>th</sup> October, 2021 at Food Technology Laboratory

**Development of low-cost Coconut cutting and puncturing machine**

It was observed that problems were faced during the cutting of young coconut in commercial purpose. Therefore, the need of efficient coconut cutting machine was developed. The purpose of this machine is to cutting and punching the coconuts. The basic principle of the project is to apply the pressure to cut and punch the coconuts. Initially coconut is placed in the circular box. After that lever is attached to closed coil. The pressure is applied on the lever to punch the coconut. After removing pressure lever comes to original position by tension of spring. After removing the water coconut is placed in that rectangular tray. Apply the pressure on the lever to cut the coconut by the use of knife. It is very simple operation. It does not have more skill to cut the coconut.

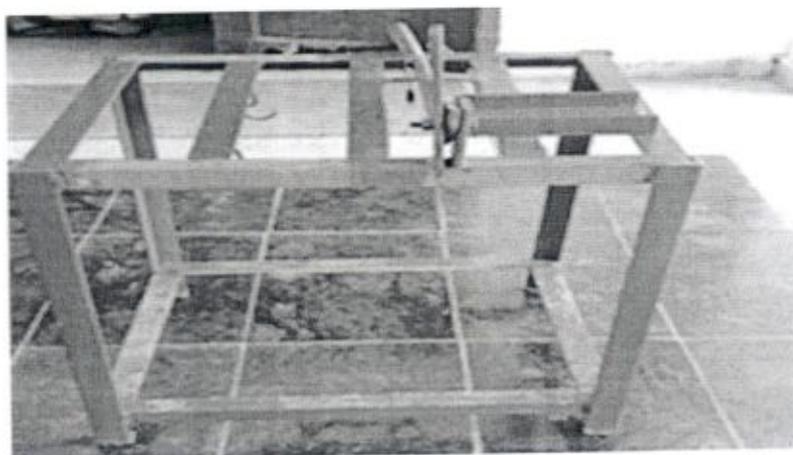

Figure 1: Coconut cutting and puncturing machine developed by applied engineering department

(Estd. U/s 3 of UGC Act 1956) Vadlamudi, Guntur Dist., A.P., India-522 213

**Development and optimization of recipes from coconut water and meat**

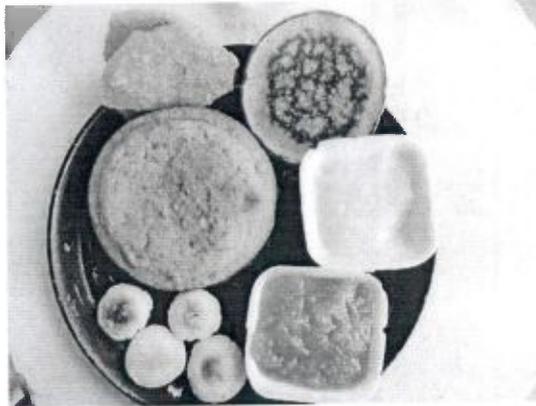

Figure 2: Various products prepared from tender coconut cream

**The recipes were developed for various**

Following are product for which the recipes were standardized for processing of coconut meat:

1. Coconut meat cake
2. Coconut cream
3. Coconut Jam
4. Coconut meat pan cake
5. Coconut meat ice cream
6. Coconut butter milk

7. Coconut meat sweet laddus.

The recipes were developed in such a way that shelf life of the product can be extended up to 2-3 days (minimum in room conditions so that local vendors can get the sufficient time for selling of the products. Detailed recipes were given to the participants at the time of hands-on training and participants were asked to prepare all the product at least once during the program.

The parameters like food safety and security were also discussed during development of content for the training program and efforts were made to keep the program more business oriented in comparison to research oriented. There all the proximate analysis of samples were done prior to the program and only the information related to new product development was passed to the participant even during technical sessions

**Innovation & Entrepreneurship Development Center**

**VIGNAN'S FOUNDATION FOR SCIENCE, TECHNOLOGY AND RESEARCH**

(Estd. U/s 3 of UGC Act 1956) Vadlamudi, Guntur Dist., A.P., India-522 213

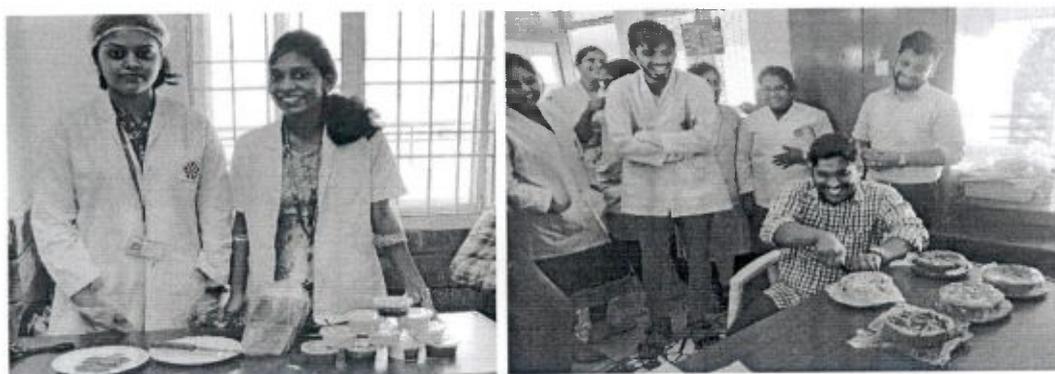

Figure 3: Testing and demonstration of products developed from tender coconut meat

Following is the core team involved during the development of content and phase I of the program:

Name	Designation
Dr. Sandeep Singh Rana	Project Co-ordinator, Assistant Professor (FT)
Mr. Lokesh	Assistant Professor, (AE)
Dr. Payel Ghosh	Assistant Professor (FT)
Dr. Syed Irshaan	Assistant Professor (FT)
Mr. Rajesh	Lab Technician

In this phase the external participants were limited because optimization and standardization of content was needed. Following is the schedule followed during the training program for first batch the batch strength was 141 Students.

**Training: Day wise training plan is given below**

**Day 1: GMP, GHP and FSSAI regulation:**

FSS act, vender registration process for FSSAI, good handling practices (GHP) for venders, GHP and GMP for coconut water.

**VIGNAN'S FOUNDATION FOR SCIENCE, TECHNOLOGY AND RESEARCH**

(Estd. U/s 3 of UGC Act 1956) Vadlamudi, Guntur Dist., A.P., India-522 213

**Day 2: Quality and safety of coconut water and Research Scope:**

At home/ in the absence of a laboratory: by observing the appearance of the product and by noting the smell

In the laboratory: by chemical testing, by monitoring the physiochemical properties and by microbiological testing

**Day 3: Hands on training:**

Training on operating semi-automatic and fully automatic machine for coconut meat extraction machine, training on various value-added product from coconut water and coconut meat.

As a vote of thanks Director IES thanked the participants and NRDC for Financial Funding to this Program. Also thanked the Team E-Cell and department of Chemical engineering for dedicated efforts towards making this program successful.

### To "STARTUPHOUSE" Auditions

On 24 September 2021

#### Program Report:

The Entrepreneurship Cell and Institute of Innovation Council (IIC) of the Vignan Foundation for Science, Technology & Research (Deemed to be University) in association with Startup House Pvt., Ltd. and HMTV, hosted for "STARTUP HOUSE" Auditions. The

**Innovation & Entrepreneurship Development Center**

**VIGNAN'S FOUNDATION FOR SCIENCE, TECHNOLOGY AND RESEARCH**

(Estd. U/s 3 of UGC Act 1956) Vadlamudi, Guntur Dist., A.P., India-522 213

guests included Dr.Vinod Kumar Pentakota, Founder and CEO of Startup House Pvt Ltd, Mr.Gnaneswar Cherukuri, Director of Startup House Pvt Ltd, and Mr.Lavu Sri Krishna Devarayulu, Loksabha Member and Vice Chairman of Vignan University. We had a large turnout for these auditions, with 45 Teams registering for them. Of those, 26 teams were chosen, with the majority of them being ideators and entrepreneurs. The majority of the faculty members had expressed interest in the startup house auditions. We have invited our dignitaries to the lamp lighting ceremony.

Dr.B. Nageswara Rao, the director of IES, had shared his opinions about this startup house during his opening remarks. Our registrar, Cmde. Dr.M.S.Raghunathan, delivered a speech in which he encouraged students to be involved in all aspects of their lives. Guests began their talks, filling the students' and participants' energy. They shared their thoughts about this startup house. They want students to grow up to be future entrepreneurs. Mr.Gnaneswar Cherukuri emphasized on ones ability will lead to a successful person with a right support. Dr.Vinod Kumar Pentakota enlightened the participants with key inputs to come out with sustainable startups. The auditions had now begun. Each person had shared their thoughts. Commercialization of hydroxyapatite, Good cookies, Soapnuts processing unit, Smart jewellery – personal safety device, Bio degradable carry bags are a few among them. Gud Cookies has shown off their product. The event's internal judges were Dr.B.Nageshwarao, Director IES, while the external judges were Dr.P.Vinod kumar, Mr.Gnaneswar cherukuri V.Venkat Reddy. The judges interacted with the participants and asked questions. The judges have stated that they will provide financing for some proposals as well as help to the appropriate groups. The chairman and vice chairman attended this session and lauded HMTV and Startup House's initiative.

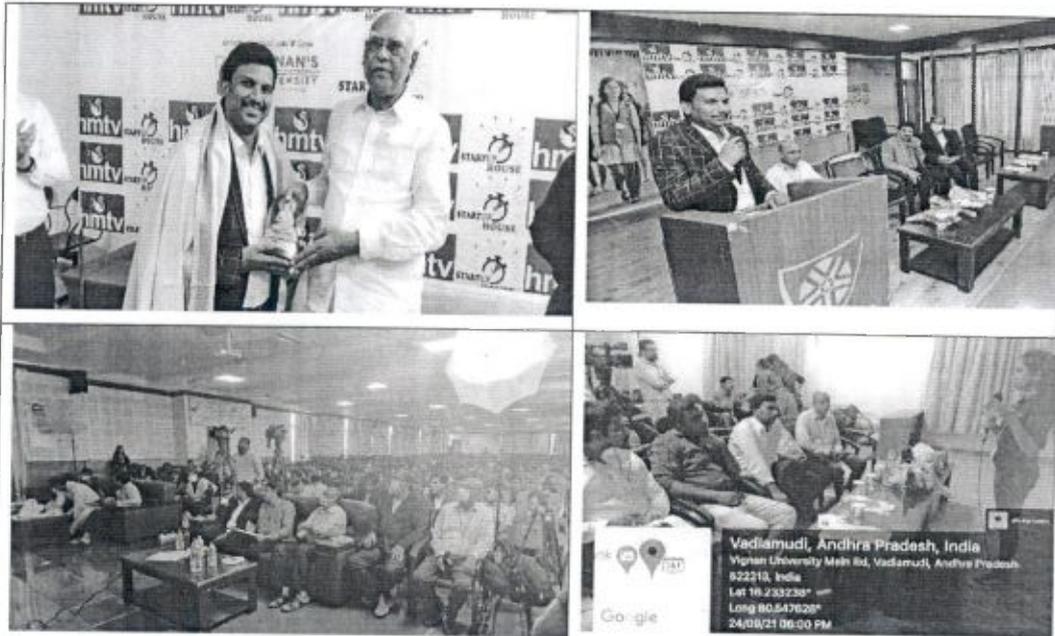

Finally, Dr.Vinod Kumar Pentakota, CEO Startup House and Mr.Gnaneswar Cherukuri Associate Editor HMTV were felicitated by the chairman of Vignan University Dr. Lavu Rathaiah and thanked our Guests for their presence. The Guests thanked each and every participant for their contributions, and they finished the programme by endorsing some of the proposals.

**VIGNAN'S FOUNDATION FOR SCIENCE, TECHNOLOGY AND RESEARCH**

(Estd. U/s 3 of UGC Act 1956) Vadlamudi, Guntur Dist., A.P., India-522 213

As a vote of thanks Director IES thanked the guests for their patient listening and assurance of Financial Funding to the identified Startup ideas. Also thanked the Team E-Cell for dedicated efforts towards making this program successful. Last but not least thanked the Vignan Management and Chairman of Vignan Group Dr.Lavu Rathaiah Sir, Mr.Lavu Srikrishna devarayulu, Vice Chairman of Vignan Group, Chancellor, Registrar, Dean Student Affairs, Dean R & D and all the heads of the departments including media and staff for their kind support and encouragement.

Dr.Lavu Rathaiah Felicitating the P Vinodkumar, CEO, Opencube Technology Pvt., Ltd.

**Program Report:**

This program aims to give certification training in various welding technologies like arc welding, gas welding, TIG welding, MIG welding and spot welding with hands-on experience to correlate the theory with practice.

Students are given training in both theory and hands-on experience in each session to get more exposure to practical knowledge.

**Phase 1:**

**Welding Introduction**

- History,
- Safety Precautions in All Welding's
- PPT – Presentation

**Phase 2:**

**Introduction of Oxy-Fuel Hand Gas cutting setup and Connections**

- Practice Hand Gas Cutting Torch Balancing and running the torch on the line without flame.
- Practice Hand Gas Cutting Straight lines cutting.
- Practice Hand Gas cutting 40° Bevel angles cutting.
- Explain the Workpiece Edge preparation and hands-on practice

**Phase 3:**

**Different type of Joints along with various Positions in SMAW**

- SMAW Practice in Straight line Beads, 1 'F' and 1 'G'
- SMAW Practice in 2 'F' and 2 'G'
- SMAW Practice in 3 'F' and 3 'G'
- SMAW Practice in 4 'F' and 4 'G'

**Innovation & Entrepreneurship Development Center**

**VIGNAN'S FOUNDATION FOR SCIENCE, TECHNOLOGY AND RESEARCH**

(Estd. U/s 3 of UGC Act 1956) Vadlamudi, Guntur Dist., A.P., India-522 213

**Phase 4:**

**Different type of Joints along with various Positions in GMAW**

- GMAW Practice in Straight line Beads, 1 'F' and 1 'G'
- GMAW Practice in 2 'F' and 2 'G'
- GMAW Practice in 3 'F' and 3 'G'
- GMAW Practice in 4 'F' and 4 'G'

**Single 'V' Butt joint in 1 'G' Position by SMAW & GMAW**

- Practice Single 'V' Butt joint Root run and Final run with SMAW in 1 'G' Position and
- Build up with GMAW.
- PQR- TEST

**Upon successful completion, students can**

- Understand the principles of welding processes.
- Distinguish between consumable arc and non-consumable arc welding processes
- Select an appropriate welding process for specific applications.

After Successful completion of the course, students were given a certificate of participation.

### **Program Report:**

Any electronic instrument or piece of equipment can be considered as a system. A system can be defined as “anything formed of component parts connected together to make a regular and complete whole”. An instrument or piece of equipment can have sub-systems made in blocks to perform specific functions. These sub-systems are made-up of electronic circuits, which are forms of electronic/electrical or electromechanical component parts. The failure of a component in equipment may lead to the failure of the system. Failure is said to

**Innovation & Entrepreneurship Development Center**

**VIGNAN'S FOUNDATION FOR SCIENCE, TECHNOLOGY AND RESEARCH**

(Estd. U/s 3 of UGC Act 1956) Vadlamudi, Guntur Dist., A.P., India-522 213

be the inability of a system to perform its required function. The need for continuous performance of equipment requires that it is given regular maintenance. It is, therefore imperative that the meaning of maintenance is well understood.

Electronic equipment can develop a wide variety of problems. The act of troubleshooting arises in order to make the problems disappear so that the equipment works as per the expectation.

Troubleshooting is the process of isolating and correcting a problem in malfunctioning equipment so that it returns to its expected performance level.

This workshop designed to provide an understanding of the basics of Electrical and Electronic with an introduction to various electronic active & passive components and test equipments. The participants acquainted with the Electrical Hazards along with work place safety instructions and precautions that need to be taken while handling the Electrical and Electronic equipment and appliances. It covers the basic know how required for Installation, Repair and Maintenance of Washing Machine, Microwave Oven and Juicer-Mixer-Grinder. In addition, the participants gain the knowledge about Soldering & De-soldering technique.

**Phase 1:**

**Electrical and Electronic Component Identification and Use Skills**

- Understand use of Electrical Component such as cable, switches, transformers, etc. Understand use of Electronics Component such as Diodes, Transistors, ICs etc.
- Use of Test and Measurement Equipment

**Phase 2:**

**Soldering skills**

- Understand Soldering Requirements Operation of Equipment required for Soldering
- Use of De-soldering Pump

**Phase 3:**

**Basic functionality and Installation**

- washing machine, Microwave oven, Juicer-Mixer-Grinder, Water Purifier

**Phase 4:**

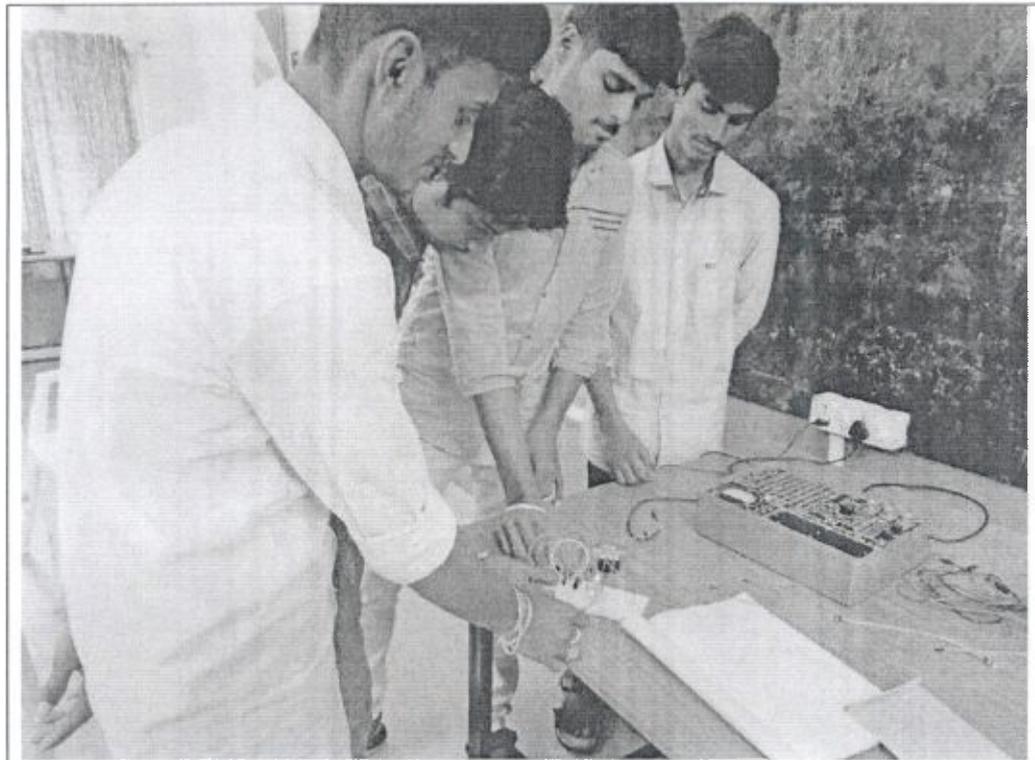

Fault identification, Repair and Maintenance of Washing machine

**Program Report:**

Electrical wiring in general refers to insulated conductors used to carry electricity and associated devices. General aspects of electrical wiring are used to provide power in to building and structures commonly referred as building wiring. Electrical wiring whether for residential , Commercial or industrial projects must be carefully installed and maintained in

**Innovation & Entrepreneurship Development Center**

**VIGNAN'S FOUNDATION FOR SCIENCE, TECHNOLOGY AND RESEARCH**

(Estd. U/s 3 of UGC Act 1956) Vadlamudi, Guntur Dist., A.P., India-522 213

such a way it will provide safety to person and properly this requires Good workmanship , knowledge of electrical principles and circuitry . Familiarity with electrical wiring Accessories is an important provision beside an awareness of and strict adherence to the provisions of the national electrical code (NEC).

Factor affecting the choice of wiring:

- 1) Durability: - Type of wiring selected should conform to standard specifications, So that is durable i.e. without being affected by the weather conditions fumes etc.
- 2) Safety: - The wiring must provide safety against leakage, shock and fire hazards for the operating personnel.
- 3) Appearance: - Electrical wiring should give aesthetic appeal to the interiors.
- 4) Cost: - It should not be prohibitively expensive.
- 5) Accessibility: - The switches and plug points provided should be easily accessible. There must be provision for further extension of the wiring system, if necessary.
- 6) Maintenance Cost: - The maintenance cost should be a minimum. Accessories required for domestic wiring :-
  - a) Wire and cable
  - b) Flexible cords
  - c) Switch :- They are classified in two types ,
    - 1) Tumbler switch
    - 2) Flush switch

According to operation required they are classified as,

- One-way switch
- Tow way switch
- Centre off switch
- Double pole switch
- Table lamp switch
- Bed switch

**Phase 1**

Demonstration and identification of common electrical material such wire, cable, switches, fuses pvc channels allied items tools along with electrical instrument such as voltmeter, ammeter and Multimeter.

**Innovation & Entrepreneurship Development Center**

**VIGNAN'S FOUNDATION FOR SCIENCE, TECHNOLOGY AND RESEARCH**

(Estd. U/s 3 of UGC Act 1956) Vadlamudi, Guntur Dist., A.P., India-522 213

**Phase 2**

Study of electrical safety measures and demonstration about use of protective. Device such as fuses, MCBs , ELCB and relays including earthing.

**Phase 3**

Make conduit connection to control one lamp from two different places with two different switches according to a given route diagram (staircase wiring).

- Physical marketing of layout of wiring in all unit / rooms.
- providing and laying complete wiring
- fixing all fittings and fixtures and complete electrical installation
- testing of installation
- providing consumers meter

**Phase 4**

- Ducting and wiring systems for commercial, domestic, residential agricultural and industrial use and when and where to use a specific ducting and/or wiring system The range of electrical switchboards used for commercial, domestic,
- residential, agricultural and industrial uses and when and where to use a specific switchboard system Types of electric lighting and heating systems for commercial, domestic

**Phase 5**

- residential and industrial use Control devices and socket outlets used for commercial, domestic,
- residential, agricultural and industrial uses Structured cabling systems including: computer network cabling.

**Phase 6**

- fire/burglar alarm (conventional and addressable), evacuation control (audio and optical), control and monitoring, access control ('stand-alone' and 'network supervised'), closed circuit television (cameras, lenses and attachment component, recorders and monitors

**List of Participants**

SI No.	Name of the Team Lead	Category
1.	Shaik mustafa	Student
2.	Shaik gajula Asmin	Student
3.	Mallapuram M.harini reddy	Student
4.	Gadde Sathwick	Student
5.	Yalavarthi Lasya priya	Student
6.	Kumar Aniket	Student
7.	Kanchibatla Lasya priya	Student
8.	Molla Baji	Student
9.	Yadulamala Lakshmi srivani	Student
10.	Boya Poojitha	Student
11.	Emani Rakesh	Student
12.	Shaik Shaik mufidunnisa	Student
13.	Nunna Srinivas	Student
14.	Dande Kyathi nandini	Student
15.	Vejendla Navya madhuri	Student
16.	Kari Thanmai	Student
17.	Raavi Raavi gnana sai surya	Student
18.	Gogineni Sowmya	Student
19.	Movva Dhruvitha	Student
20.	Hinge Preethi kundan	Student
21.	Maddu Sohini sravya	Student
22.	Chagantipati Shanmukh	Student
23.	Dasari Sai vishnu babu	Student
24.	Pamidimukkala Navya sai	Student
25.	Minumanuri kotlo Jyotshna	Student

Andhra Pradesh State  
Skill Development Corporation

**VIGNAN'S**  
Foundation for Science, Technology & Research  
(Deemed to be University)  
Estd. u/s 3 of UGC Act 1956

**Program Report:**

The use of CNC Machine in all industries is increase day by day so this course introduces the concepts and capabilities of computer numerical control machine tools. Topics include Introduction about CNC technologies. Part Programming, Geometric dimensioning and Tolerances, setup CNC machine for operation and basic practice on CNC machine in context with industrial applications gives real industrial knowledge to the attendees. With the

**VIGNAN'S FOUNDATION FOR SCIENCE, TECHNOLOGY AND RESEARCH**

(Estd. U/s 3 of UGC Act 1956) Vadlamudi, Guntur Dist., A.P., India-522 213

completion of this course, students should be able to operate CNC machine as well as able to program any industrial component

**The objective of Course:**

To provide hands-on experience in writing codes and part programs for various basic level machining operations like facing, turning, and thread cutting with CNC Turn.

Students are given training in both theory and hands-on experience in each session to get more exposure to practical knowledge.

**Phase 1:**

Introduction about CNC Technologies

- Classification of CNC Machine
- Advantage of CNC Machine tool
- Limitation of CNC Machine tool
- Application of CNC Machine tool
- Comparison between conventional & CNC machine

Introduction about Part Programming

- Step in Part Programming
- The terminology used in CNC part Programming

**Phase 2:**

Selection of Cutting tools

- Introduction about various cutting tools and their cutting angles, tool holders and inserts used in CNC machines

Introduction about geometric dimensioning and tolerances and selection of cutting parameters

- Introduction about various features of GD & T
- Flatness
- Parallelism
- Circularity
- Eccentricity with use of engineering drawing

How to select cutting parameters like spindle speed, feed, axial and radial depth of cut for different machining condition

**Innovation & Entrepreneurship Development Center**

**VIGNAN'S FOUNDATION FOR SCIENCE, TECHNOLOGY AND RESEARCH**

(Estd. U/s 3 of UGC Act 1956) Vadlamudi, Guntur Dist., A.P., India-522 213

**Phase 3:**

**Input Data in Manual Part Programming**

- Sequence Number (N code)
- Preparatory Function (G Codes)
- Coordinate Function (X, Y, Z, U, V, W and I, J, K)
- Feed Function (F)
- Spindle Speed Function (S)
- Tool Function (T)
- Miscellaneous Function (M codes)

Upon successful completion, students can

- Identify different axes, machine zero, home position, systems, and controls CNC machines.
- Select, mount, and set cutting tools and tool holders on CNC.
- Prepare part programs using ISO format for given simple components

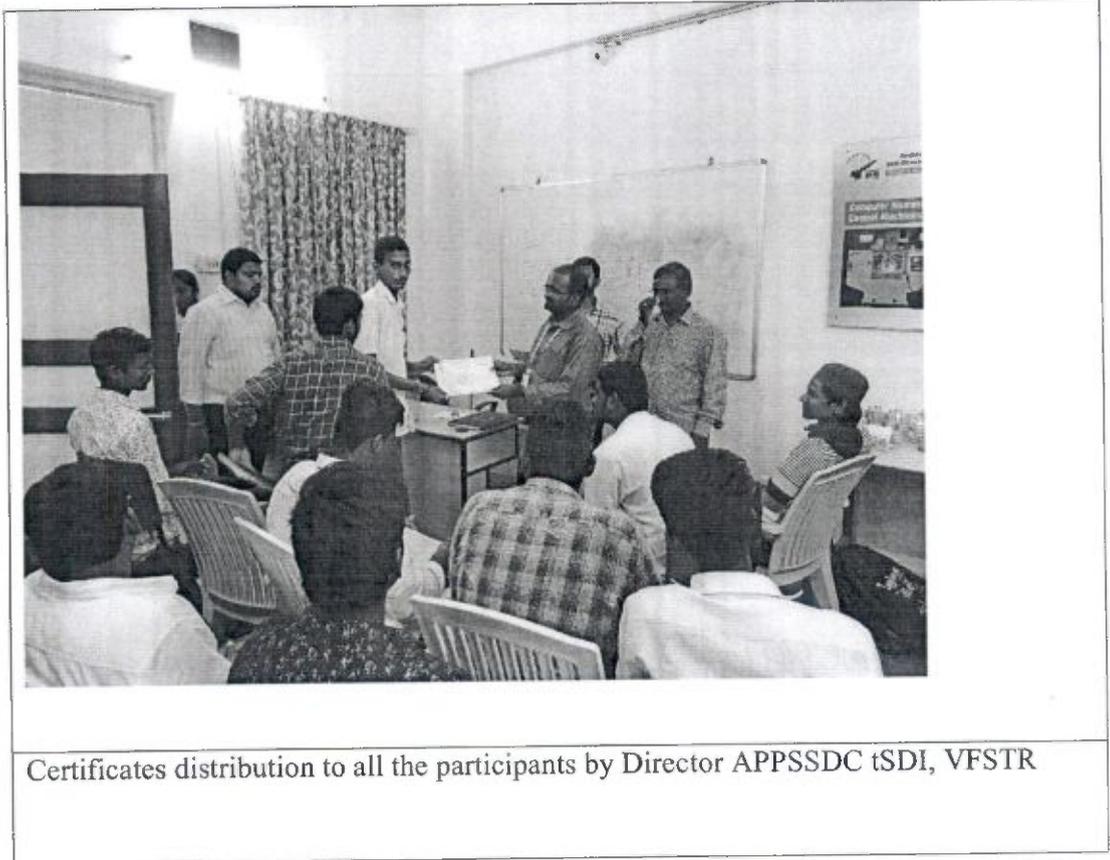

After Successful completion of the course, students were given a certificate of participation.
