Dr. S. Venkatesan	-	External Member
Dr.B.S. Sanjeev	-	External Member
Dr. Avinash Reddy	-	Invitee
Mr. B. Naga Sudheer	-	Invitee

Agenda:

1. Introduction of Members
2. Existing Infrastructure
3. Short Term Goals
4. Long Term Goals
5. Discussion and Suggestions

S.No	Item	Notes
1	Introduction of Members	Members introduced to each other their experience
2	Existing Infrastructure	Presented by Dr.Y.Ravi Sekhar, Dean TD about the existing infrastructure to all the members
3	Short Term Goals	**Upgradation of existing N/W infrastructure:** - Members suggested to have ring topology and a master plan for whole university regarding the networking architecture - To have the redundant lines from Core Switch to other buildings as well **Upgradation of existing S/W automation:** - Presented the existing software tool details by Dean TD - Suggestion from the members are to get a very good architecture for the software where it can create a complete platform for all the university activities - In order to achieve this needed to get system architects, having 2 to 3 permanent employees, student internships - Students should be involved in coding only - While In-house development, should have a good coding rules and standards, good documentation and configuration management - Mastersoft is a good education ERP software. Can be negotiated a good price with them if possible

Dr. B. Seetha Ramanjaneyulu

Dr. Y. Ravi Sekhar
