3660e2ba6ea2a417b7ad9491a159a720

\* Normalized marks for Civil Engineering (CE),  
Computer Science and Information Technology (CS)  
and Mechanical Engineering (ME) Papers.

\*\* A candidate is considered qualified if the marks  
secured are greater than or equal to the qualifying  
marks mentioned for the category for which valid  
category certificate, if applicable, is produced along  
with this scorecard.

The GATE 2021 score is calculated using the formula

$$GATE\ Score = S_q + (S_t - S_q) \frac{(M - M_q)}{(\bar{M}_t - M_q)}$$

where,

$M$  is the marks obtained by the candidate in the paper, mentioned on this GATE 2021 scorecard

$I_q$  is the qualifying marks for general category candidate in the paper

$\bar{M}_t$  is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)

$S_q = 350$ , is the score assigned to  $M_q$

$S_t = 900$ , is the score assigned to  $\bar{M}_t$

In the GATE 2021 score formula,  $M_q$  is 25 marks (out of 100) or  $\mu + \sigma$ , whichever is greater. Here  $\mu$  is the mean and  $\sigma$  is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2021 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

The GATE 2021 score is calculated using the formula

$$GATE\ Score = S_q + (S_t - S_q) \frac{(M - M_q)}{(\bar{M}_t - M_q)}$$

where,

$M$  is the marks obtained by the candidate in the paper, mentioned on this GATE 2021 scorecard

$M_q$  is the qualifying marks for general category candidate in the paper

$\bar{M}_t$  is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)

$S_q = 350$ , is the score assigned to  $M_q$

$S_t = 900$ , is the score assigned to  $\bar{M}_t$

In the GATE 2021 score formula,  $M_q$  is 25 marks (out of 100) or  $\mu + \sigma$ , whichever is greater. Here  $\mu$  is the mean and  $\sigma$  is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2021 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

## About Your GRE® Score Report

### Score Reporting Policies

With the ScoreSelect® option, you can decide which test scores to send to the institutions you designate. There are three options to choose from:

- **Most Recent option** - Send your scores from your most recent test administration.
- **All option** - Send your scores from all administrations in the last five years.
- **Any option** - Send your scores from one OR as many test administrations in the last five years (this option is not available on test day when you select up to four FREE score reports).

Scores for a test administration must be reported in their entirety. Institutions will receive score reports that show only the scores that you selected to send to them. There will be no special indication if you have taken additional GRE tests. See the GRE® Information Bulletin for details. The policies and procedures explained in the Bulletin for the current testing year supersede previous policies and procedures in previous bulletins.

### Overall Band Score

Overall 7.0 Good User

The test taker has operational command of the language, though with occasional inaccuracies, inappropriate usage and misunderstandings in some situations. They generally handle complex language well and understand detailed reasoning.

Test Score Your result explained

Listening 8.0

Test takers at Band 8 can typically follow extended speech involving complex and detailed argumentation. They can identify and process language and grammar automatically, and so are able to concentrate on the development of the overall meaning of what is said by a speaker or speakers. They can understand a wide range of vocabulary, including idiomatic language and fixed phrases or unusual collocations, as well as technical and academic language.

**Advice to improve your score**  
 Listen to discussion programmes, especially those on abstract topics you're less familiar with, without pausing or repeating the recording. Try to predict how the conversation might develop, then see if you're correct. Make it a point to notice how the speakers express and qualify their opinions, noting ways they say things that make their arguments particularly effective. Where speakers have different points of view, notice how they respond to one another's comments. Use strategies to infer ideas and meanings that are not directly stated. Afterwards, try to reconstruct the discussion to yourself, to check how much you have understood.

Reading 7.5

Test takers at Band 7.5 can typically deal with a variety of factual and opinion-based texts that may be complex and dense with information. They are very good at using their wide vocabulary knowledge to create meaning, both within and across sentences, on a range of general and specialised topics. They can follow an argument and distinguish between main ideas and supporting details, and are good at understanding attitude, opinion and implication. They are able to do this by using reading strategies such as skimming and scanning, and by synthesizing information and drawing inferences.

At this level, it is important to broaden the range of texts you read further. Continue to develop your awareness of how to read different types of texts differently. What features does that particular type of text typically have? How is information structured and arranged in such texts? Will it require making inferences? Will there be a summary somewhere? Use your knowledge of these and approach the reading task in an appropriate way. Where you want to know the overall argument or specific arguments, try to do this as efficiently as possible. As an exercise, try to find several opinion-based texts on the internet, and then determine the similarities and differences in their opinions and views.

## Speaking

6.5

Test takers at this band can typically speak at length, although they are sometimes less clear or fluent because of repetition, self-correction, or hesitation to search for words or grammar. Speaking is generally well-organised, and ideas are generally well linked, but with some errors. They have enough vocabulary to discuss topics clearly and at length, although there are often errors, and they can usually paraphrase well. They can use simple and complex grammar structures but with limited range. There may be frequent grammar errors, particularly in more complex structures, but language is usually easy to understand. Pronunciation can be clear and effective, but there may be problems. They are usually easy to understand, although words may be unclear at times.

Talk to other English speakers about more abstract topics or more difficult current topics. Keep the discussion going for as long as possible. At the same time, try to express your ideas as accurately as you can, using the best words you know. Many of your ideas will also require the use of complex grammatical structures. If you're using several simple sentences, try to join them up in a way that makes your point clearer. Listen (and read) in English more to help you pick up natural and idiomatic phrases. When listening, note the rhythm and also the words that the speaker stresses. Is your rhythm similar? Are you putting the stress on the right words?

## Writing

6.0

Test takers at this band can typically address all parts of the question, some more fully than others. (AC) They can give an overview. (GT) The letter has a generally clear purpose; the tone is sometimes not consistent. Key features and bullet points are covered. The point of view and main ideas are relevant but the conclusion(s) may be unclear. Some details might be irrelevant or wrong. Test takers can arrange their ideas logically, so that the writing has a clear progression from start to finish. They are able to use some linking words well, but others with mistakes. They can paragraph their Task 2 writing, although not always logically. They have enough vocabulary to answer the question. They try to use some less common words. They make some spelling mistakes, but the reader can still understand. They can write a mix of simple and complex sentences. The grammar and punctuation mistakes do not usually cause difficulty for the reader.

Practice writing to give information and make arguments. Make sure you cover all the points that need to be covered, providing supporting ideas and details. Reread your work and see if you can make your points clearer. Is the ordering of your ideas logical? Sometimes, rearranging them can make things clearer. You can also try joining up or separating sentences, using the right connecting devices, and changing where you divide your paragraphs. Continue to develop your vocabulary. Words can be similar in meaning but differ in formality, in their tone, and in their implications. Focus on learning the best words to use for the writing task, the situation, and what you want to say. Challenge yourself by producing sentences that are more complex. If you make mistakes with them, don't worry too much; just check and see how you can fix them.

### Overall Band Score

	Overall	6.5	Competent User	<p>The test taker has an effective command of the language despite some inaccuracies, inappropriate usage and misunderstandings. They can use and understand fairly complex language, particularly in familiar situations.</p>
Test	Score	Your result explained		Advice to improve your score
Listening	7.5	<p>Test takers at Band 7.5 can typically follow extended speech and understand detailed instructions to complete tasks, including some involving complex ideas. They can identify ideas, attitudes, opinions or purposes which are implied by the speaker but not directly stated. They can easily understand meaning, including references within and between sentences, without having to process individual words and structures. They can understand a wide range of vocabulary, including some idiomatic, technical, and academic language, even when the language and ideas are complex.</p>		<p>Listen to current affairs and documentary programmes, or online talks, without pausing or repeating the recording. Try to remember as much as you can, including new words, main ideas, specific points, and their relationship to each other. Afterward, reconstruct what you've heard. How much are you able to reconstruct? Listen more and try to increase the amount that you can reconstruct. When speakers don't directly say what they mean, we use strategies to guess their meaning. What are some of these strategies that you use in your own language? Use the same strategies to understand them in English.</p>
Reading	6.0	<p>Test takers at Band 6 can typically deal with a range of factual and opinion-based texts that may be relatively complex and dense with information. They are good at using their vocabulary knowledge to create meaning, both within and across sentences, on a range of general topics and some specialised ones. They can understand implied meanings, and have some ability to understand somewhat complex opinions and arguments. They can generally use reading strategies such as skimming and scanning, and can generally synthesize information and draw inferences.</p>		<p>Try to read different types of texts, including general and academic texts, and not just in your subject area. In general interest articles, the main point may come in a different place than you expect. In academic texts there will be fewer opinions, or they may be harder to spot. On the other hand, they can be dense with information. Be aware of the differences, and adjust the reading strategies you use depending on the text you're reading. Decide when to read carefully and when to read quickly. In any case, you may want to give yourself a set amount of time, so that even your careful reading is done more quickly and efficiently.</p>
Speaking	6.0	<p>Test takers at this band can typically speak at length, although they are sometimes less clear or fluent because of repetition, self-correction, or hesitation to search for words or grammar. Speaking is generally well-organised, and ideas are generally well linked, but with some errors. They have enough vocabulary to discuss topics clearly and at length, although there are often errors, and they can usually paraphrase well. They can use simple and complex grammar structures but with limited range. There may be frequent grammar errors, particularly in more complex structures, but language is usually easy to understand. Pronunciation can be clear and effective, but there may be problems. They are usually easy to understand, although words may be unclear at times.</p>		<p>Talk to other English speakers about more abstract topics or more difficult current topics. Keep the discussion going for as long as possible. At the same time, try to express your ideas as accurately as you can, using the best words you know. Many of your ideas will also require the use of complex grammatical structures. If you're using several simple sentences, try to join them up in a way that makes your point clearer. Listen (and read) in English more to help you pick up natural and idiomatic phrases. When listening, note the rhythm and also the words that the speaker stresses. Is your rhythm similar? Are you putting the stress on the right words?</p>

Writing

5.5

Test takers at this band are typically able to partly answer the question. (AC) There may be too much detail and no overview, or no data. (GT) The purpose of the letter may be sometimes unclear, and the tone sometimes not suitable. Test takers can give their own point of view and some main ideas, although these may not lead to any conclusions. They can partly organise their writing, and can use some joining words, although these are wrongly used or over-used in places. The writing might repeat itself and the Task 2 might lack paragraphs. They have just enough vocabulary to answer the question, although spelling mistakes cause some difficulty for the reader. They are able to use some basic sentences correctly, and try some complex sentences, which often contain mistakes. Punctuation is sometimes faulty and the mistakes in grammar cause some difficulty for the reader.

Practice writing to give information. Try writing a one sentence summary of the points you want to make. A good summary sentence at the beginning of your work can help the reader know what's coming, making your work easier to read. Then, go through your points one by one. Put different points in different paragraphs, to make them easier to follow. Don't forget that letters, reports and essays are different, so make sure your writing matches what you're being asked to write. After you produce a piece of writing, see if there are sentences next to each other that can be combined into a complex sentence. If you're referring to something frequently, try to refer to it in different ways. This can often make your writing flow better. Check your spelling to make sure they are correct.
