ABOUT SRKIT

SRK Institute of Technology was established in 2007 under the eminent guidance of the Sri. B. S. Appa Rao. He desired to build a knowledge society for the benefit of students hailing from rural and semi urban regions of Andhra Pradesh. His association with professional courses such as Engineering, Medical and Pharmacy in Andhra Pradesh spans over three decades. He dreams of alleviating the status of educational institutions making them Centers of Excellence on par with IITs and deemed universities. He envisages establishing Research and Development wing for inculcating scientific temper, humanism and the spirit of equity and reform among the student community

ABOUT THE IQAC

Quality enhancement is a continuous process, the IQAC become a part of the institution's system and work towards realisation of the goals of quality enhancement and sustenance.

The prime task of the IQAC is to develop a system for conscious, consistent and catalytic improvement in the overall performance of institutions. The work of the IQAC is the first step towards internalization and institutionalization of quality enhancement initiatives. Its success depends upon the sense of belongingness and participation in all the constituents of the University. It will not be yet another hierarchical structure or a record-keeping exercise in the College.

IQAC will be a facilitative and participative voluntary system/unit/organ of the College. It has the potential to become a vehicle for ushering in quality enhancement by working out planned interventionist strategies by IQAC to remove deficiencies and enhance quality like the "Quality Circles" in industries.

One Day National Seminar on **"Awareness on NAAC Files"**

17th August, 2020

Organized by
Internal Quality Assurance Cell
SRK Institute of Technology, Vijayawada

www.kitsguntur.ac.in

SEMINAR THEME

Preparation of NAAC files is the systematic, independent, and documented review and evaluation of an organization's quality management system (QMS) to determine whether quality activities and results comply with a strategic arrangement that is effectively implemented and appropriate to achieve the objectives.

- * Providing evidence for the reduction and elimination of any problem areas.
- * File content should be clear and should be date wise.
- * Ensuring whether the products are fit for use, safe for the consumers and regulations are being followed.
- * File should be prepared informative and proper evidences.
- * Identifying whether the quality policies of organizations meet quality standards adequately.
