ANNAMACHARYAJAYANTHIUTSAVAM

Shri Tallapaka Annamacharya, also popularly known as Annamayya, was a 15th Century Hindu saint and the earliest known Indian musician to compose "sankirtanas" in praise of Lord Venkateswara. The musical form of the keerthana songs that he composed are still popular among Carnatic music artists, and has strongly influenced the Carnatic music compositions. Annamacharya is remembered for his entire life, and is honoured as a great devotee of Vishnu by devotees and saintly singers.

To commemorate the 614th Birth anniversary of Shri Tallapaka Annamacharya, the students of Music club have organised his Jayanthi Utsavam on 19th May 2022 at Sangamam seminar hall from 4.30 pm to 6.30 pm. The students have given solo and group vocal performances of Annamayya Keerthanas, few students have showcased their affection by performing the keerthanas with Flute and Violin. A total of 11 vocal and instrumental performances were presented by the students and the program ended with a Kuchipudi dance performance to Annamaya keerthana.

The program was organised by the students of Music club lead by their Incharge Ms. Gayathri of III Bio-Informatics, along with the support of Student Activities Council (SAC).

As a part of this marathon, Word Masters competition was conducted on the first day. It is a nest of events which include spell bee, solving anagrams, crosswords, words worth etc. This competition totally comprises of four rounds where every participant was allowed to take part in all the rounds. The first round i.e., Words worth which consists of five different questions where some jumbled letters will be given. By using them the participant should identify the different word(s) of some word size mentioned. Volleyball is a team sport in which two teams of six players are separated by a net. Each team tries to score points by grounding a ball on the other team's court under organized rules. The complete set of rules is extensive, but play essentially proceeds as follows: a player on one of the teams begins a 'rally' by serving the ball (tossing or releasing it and then hitting it with a hand or arm), from behind the back boundary line of the court, over the net, and into the receiving team's court. The receiving team must not let the ball be grounded within their court. The team may touch the ball up to three times to return the ball to the other side of the court, but individual players may not touch the ball twice consecutively.^[1] Typically, the first two touches are used to set up for an attack. An attack is an attempt to direct the ball back over the net in such a way that the team receiving the ball is unable to pass the ball and continue the rally, thus, losing the point. The team

Cricket is a bat-and-ball game played between two teams of eleven players on a field at the centre of which is a 22-yard (20-metre) pitch with a wicket at each end, each comprising two bails balanced on three stumps. The batting side scores runs by striking the ball bowled at one of the wickets with the bat and then running between the wickets, while the bowling and fielding side tries to prevent this (by preventing the ball from leaving the field, and getting the ball to either wicket) and dismiss each batter (so they are "out"). Means of dismissal include being bowled, when the ball hits the stumps and dislodges the bails, and by the fielding side either catching the ball after it is hit by the bat, but before it

UTSAV BASKETBALL TOURNAMENT 2K22

Date: 13-05-2022

Venue: Basketball court

Basketball is a team sport in which two teams, most commonly of five players each, opposing one another on a rectangular court, compete with the primary objective of shooting a basketball (approximately 9.4 inches (24 cm) in diameter) through the defender's hoop (a basket 18 inches (46 cm) in diameter mounted 10 feet (3.048 m) high to a backboard at each end of the court, while preventing the opposing team from shooting through their own hoop. A field goal is worth two points, unless made from behind the three-point line, when it is worth three.

After a foul, timed play stops and the player fouled or designated to shoot a technical foul is given one, two or three one-point free throws. The team with the most points at the end of the game wins, but if regulation play expires with the score tied, an additional period of play (overtime) is mandated.

Players advance the ball by bouncing it while walking or running (dribbling) or by passing it to a teammate, both of which require considerable skill. On offense, players may use a variety of shots – the layup, the jump shot, or a dunk; on defence,

they may steal the ball from a dribbler, intercept passes, or block shots; either offense or defence may collect a rebound, that is, a missed shot that bounces from rim or backboard.

It is a violation to lift or drag one's pivot foot without dribbling the ball, to carry it, or to hold the ball with both hands then resume dribbling. Basketball competition was initiated by Sports contingent of Vignan University.

Kho kho or **kho-kho** is a **traditional Indian sport** that dates back to ancient India. It is the second most popular traditional tag game in the Indian subcontinent after kabaddi. Kho kho is played on a rectangular court with a central lane connecting two poles which are at either end of the court. During the game, nine players from the chasing team (attacking team) are on the field, with eight of them sitting (crouched) in the central lane, while three runners from the defending team run around the court and try to avoid being touched. Each sitting player on the chasing team faces the opposite direction of their adjacent teammates.

At any time, one player on the chasing team (the 'active chaser'/'attacker') may run around the court to attempt to tag (touch) members of the defending team, with one point scored per tag, and each tagged defender required to leave the field; however, the active chaser cannot cross the central lane to access the other half of the field, and cannot change direction once they start running toward either pole. The chasing team can get around these restrictions if the active chaser either switches roles with a sitting teammate (by touching them on the back while saying "Kho") who is facing the other half of the court and therefore has access to it, or runs to the area behind either pole and then switches direction/half. Each team has two turns to score and two turns to defend, with each turn lasting nine minutes. The team that scores the most points by the end of the game wins. POETRY COMPETITION

Date: 19-02-2022

Venue: ATF 06

Poetry is like an echo asking the shadow to dance. Team SAC is back with its visionary thoughts of conducting a competition on poetry. It all started with an axiom "complete the line with the poet hidden in you". And the participants are allowed to send their entries through mails or via the official VUSAC Instagram page. As believed the hidden poets are out. Everyone wrote fabulous poems which are significant. Participants are given a line so that they can give a kick start to put down one's thoughts. The entries received took the readers into some magical world of words. Every line is extremely amazing. And to prove that language should not be a barrier to convey, this competition is administered in two languages, namely Telugu and English. The way the rivals written and the glossary used is detailed. Lines written by participants are tight-lipped. Indeed declaring results has become a tough task for the authorities. Clarity of the content and the proper ending is the criteria assessed for declaring the winners. After analyzing all, winners for the competition are S.Hemasree and K.Kyathi Sri for English and Telugu respectively. Loshalika and V.Supraja stood as runners for the day.

With the contests like this, the Team is all set to give rise to hidden skills. As per the feedback received from the participants, the whole competition went on with great organizing and a good response is all that was bagged by the organizers.

People fly kites and prepare traditional sweets like gazak for this festival that marks the arrival of spring. In different parts of the country, Makar Sankranti is celebrated in different ways. In some areas, people exchange sweets and greetings, while others take holy dip in the river.

Kite flying is an intrinsic part of Makar Sankranti celebrations. Colourful kites adorn the sky from the morning of Makar Sankranti.

According to some beliefs, the tradition of kite flying on Makar Sankranti is being carried out so that people are exposed to the sun rays. Sunning is believed to get rid of the skin infections and illnesses associated with winter.
