# Manual of Examination Automation System

## **VISION**

To evolve into a centre of excellence in Science & Technology  
Through creative and innovative practices in teaching – learning,  
towards promoting academic achievement & research excellence  
to produce internationally accepted, competitive and  
world class professionals

Who are psychologically strong and emotionally balanced  
imbued with social consciousness and ethical values

## **MISSION**

To provide high quality academic programmes,  
training activities, research facilities and opportunities  
supported by continuous industry – institute interaction  
aimed at

Promoting employability, entrepreneurship,  
leadership and research aptitude among students and  
contribute to the economic and technological development  
of the region, state and nation

## Report on the present status of automation

**1) Introduction :** 100% automation was done. The EMS is an integral part of Vignan Information Management System. All the following functions are automated. The screen shots shown are only examples and the processes are employed for all programs offered by VFSTR.

### **2) Details of modules available :**

- I. Student registration for class work
- II. Continuous evaluation marks entry
- III. Semester end examination time tables
- IV. Semester end examination student registrations
- V. Question paper setter database
- VI. Examination seating plan, student signature sheets, hall tickets
- VII. Encoding
- VIII. Evaluation module
- IX. Results processing
- X. Various facilities available to the student in website

### **3) Brief description of individual modules:**

- I. Student registration for class work:** Student will register for the subjects by using this module. Reports about the eligible candidates for enrollment, details of students who paid the tuition fee, not registered students will be taken out from this module for the use of administration.

This module deals with maintaining the database of subjects, allocation of subjects to student in each semester for class work. Screen shows **A1** shows the type of subjects currently in the database, **A2** shows number of students registered for each subject in a section, **A3** shows promoting students from one semester to another semester, **A4** shows allotting students to a particular subject.

**II. Continuous evaluation marks entry:** Entry of continuous evaluation schedules like mid examinations will be done through this module. Specifying the invigilation requirements, receiving invigilator data from departments, marking the absentees for the examinations, taking various reports of the examinations like absentees students, award lists are also done through this module. After posting of continuous evaluation marks by the faculty, various reports like exam wise, section wise marks, student wise marks reports will be taken for informing to HoDs. These marks will be sent to students as SMS.

Screenshot **B1** shows the selection of a subject for marks entry for a specified examination of continuation evaluation. **B2** shows the screen shot for marks entry of a given examination.

**B1**

III. **Semester end examination time tables:** Once the draft copy of the examination time tables are ready then the details will be entered into the software. Details like pass criteria, grading system and credits allotment will be also entered into package along with examination dates. Provision to take necessary reports is also incorporated.

Screenshot C1 shows the first step in creation of examination time table, C2 shows the allocation of date of examination for individual subject, C3 shows the entry of pass criteria, C4 shows the time table report.

**VII. Encoding :** Randomly generated 6 digit number will be assigned for each answer script to replace the registered number on the student answer script to ensure unbiased evaluation by examiner. This module facilitates the process. It also jumbles the answer scripts, form bundles as per given inputs and provides various formats needed for evaluation. Screen shots G1, G2 & G3 shows the details. Examination registrations and the absentees details are inputs into the module.

## H2

The screenshot shows a web browser window with the URL `172.168.4.1/spot/setExaminers.jsp`. The page title is "Spot Module" and it says "Welcome Raju!". The main content area is titled "Set Examiners For Exam" and contains the following form fields:

- SELECT EXAMINATION: **B.TECH.-3YEAR-2SEM-SUP-R16-OCTOBER-2020**
- DATE OF EXAMINATION: **--SELECT--**
- DATE OF COMMENCEMENT OF VALUATION: **16-10-2020**
- SELECT SUBJECT: **16EC305-COMPUTER ARCHITECTURE & ORGANIZATION**

A green "NEXT" button is located below the form fields. On the left side, there is a sidebar menu with two main sections: "Data Entry" and "Assign Spot Duties". The "Data Entry" section includes options like "Change Password", "Import Subjects For Spot", "Staff Details", "Staff Subjects", "Lock Staff Subjects", "Un-Lock Staff Subjects", "All Valuators Report", "Valuators Branchwise", and "Remunerations". The "Assign Spot Duties" section includes options like "Set Examiner/Valuator", "Set Scrutinizer", "Set Add. Examiner", "Schema Preparation", "Chief Valuated Scripts", "Double Valuated Scripts", "Bundles To Valuators", "Delete Bundles To Valuators", "Update Bundles To Valuators", "Update Bundles To Scrutinizers", "Delete Faculty Role", "Staff Work Complete", "Spot Complete", and "Clear Exam".
