ABOUT VFSTR

Vignan's Foundation for Science, Technology and research (VFSTR) (Deemed to be University), Vadlamudi, Guntur, Andhra Pradesh provides education in a diverse and intellectually stimulating environment. It imparts value addition training to students to make them competent and inspired budding legal practitioners, Engineers and Managers. The university celebrates the power of knowledge, cultivates vision and encourages new ideas, as well as aims to inculcate human values and build awareness about the self and society around. The institute is well known for its dedicated faculty, state of art infrastructure. As a Deemed to be university, it is in the process of improving its standards to the level of a global technical institution. The latest curriculum has been prepared after consulting the veterans from industry, legal practitioners and distinguished academicians possessing a rich teaching and research background.

ABOUT VIL

Established in 2020, Vignan Institute of Law (VIL) is a premier constituent institution of Vignan's Foundation for Science, Technology and Research (VFSTR), approved by the Bar Council of India (BCI). VIL's mission is to advance legal knowledge and nurture professionals equipped for advocacy, legislation, and judicial reform. Vignan Institute of Law offers 5-year B.A., LL.B. (Hons.) and BBA., LL.B.(Hons.) Degree Programmes since its inception with an intake capacity of 60 students each for B.A., LL.B. (Hons.) and BBA., LL.B. (Hons.) and VIL also offers Ph.D. (Law) Program and LLM (2 Years) Course with Constitutional Law, Corporate Law and Intellectual Property Rights Specializations with an intake capacity of 40 students.

ABOUT AVRC

The Aequitas Victoria Research Centre is a research platform of the Aequitas Victoria Foundation (Registered under Societies Registration Act 21 of 1860, India), a non-profit making and non-governmental organization that aims for making justice accessible to everyone. As rightly said, “Injustice anywhere is a threat to justice everywhere”, therefore it is one of the prime objectives of the organization to serve the best interest of justice to the fullest extent possible through various initiatives. The AVRC aims to fulfill the requirement of establishing a comprehensive, structured, and organized mechanism to carry out research works in different fields to make the Aequitas Victoria Foundation capable of achieving its goals. The Centre is expected to work as a think tank for the Foundation and to conduct research activities on proposals accepted by the Foundation considering the demand of the society and the need of the time.

ABOUT THE CONFERENCE

Environmental protection and sustainable development have emerged as critical priorities in contemporary international law and global governance. The growing challenges of climate change, biodiversity loss, environmental pollution, resource depletion, and ecological degradation necessitate effective legal frameworks and international cooperation. The United Nations Sustainable Development Goals (SDGs), adopted in 2015, provide a comprehensive global framework for addressing these interconnected challenges and promoting a balance between environmental protection, economic development, and social justice. International environmental law plays a vital role in advancing these objectives through international treaties, customary principles, institutional mechanisms, and judicial interventions. However, persistent challenges relating to treaty implementation, State responsibility, environmental accountability, climate finance, and equitable resource distribution continue to hinder the achievement of global sustainability targets. These concerns also raise important questions regarding environmental justice, human rights, intergenerational equity, and the responsibilities of State and non-State actors.

The conference aims to provide an interdisciplinary platform for academicians, researchers, legal professionals, policymakers, research scholars, and students to critically examine contemporary developments in international environmental law and their implications for sustainable development.

SUB-THEMES :

- International Environmental Law and Global Environmental Governance
- International Environmental Treaties: Implementation, Compliance and Enforcement
- Sustainable Development Goals and Environmental Sustainability
- Climate Change Law, Climate Justice and the Paris Agreement
- State Responsibility and Liability for Transboundary Environmental Harm
