Access for Rural Youth to Higher Education and Placements

At VFSTR quality initiatives are implemented to ensure that the curriculum is designed in tune with the regional, societal and global needs. Since majority of students joining VFSTR are from rural background, their communication skills in English are enhanced by offering Cambridge certified BEC and PET courses. In addition to it, concrete foundation is laid with due weightage given for basic Sciences and Engineering courses. Core components are given high weightage in the curriculum and students are given the option to choose open electives from a wide array of programmes which promotes inter-disciplinary nature that is need of the hour. Curriculum embedded with skills and project based learning enables students to learn by doing. Semester-long internship orients students towards work culture and industrial needs. In addition to it, value added courses, workshops, seminars delivered by eminent personnel from academia and industry contributes effectively to the teaching-learning process. Online feedback system is in place to reach stake holders far and wide to collect feedback for making minor or major revision in the curriculum from time to time.

Overall Students opted for Higher Education

About 10% to 15% of students from every academic year opt for higher education in India and abroad.

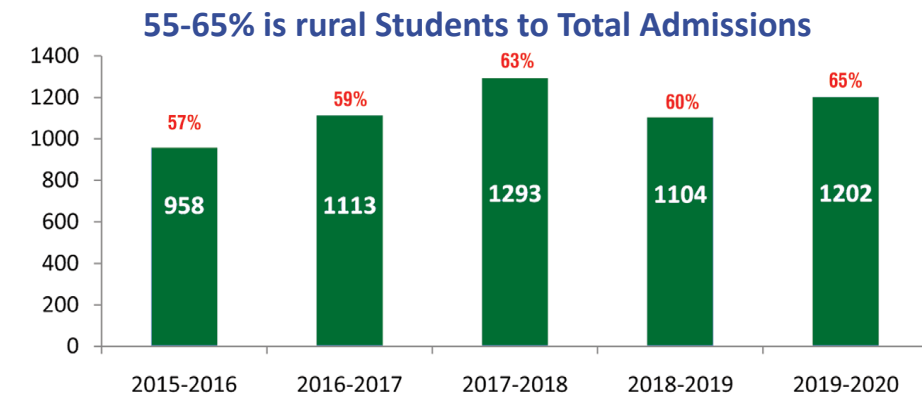

Our Proud Recruiters

Admissions

VFSTR draws talented youth from rural background from predominantly lower and middle class sections. 55-65% of students are from rural background with annual income of parents less than 3 lakhs rupees.

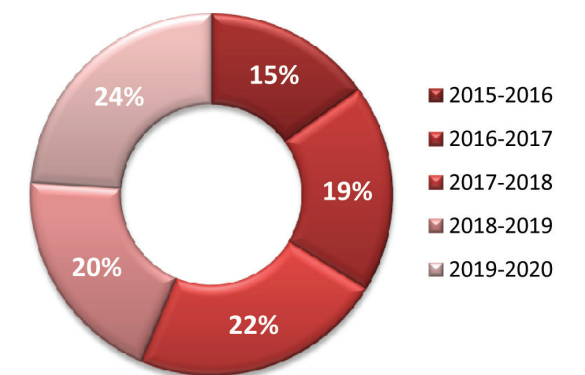

Entry level scholarships

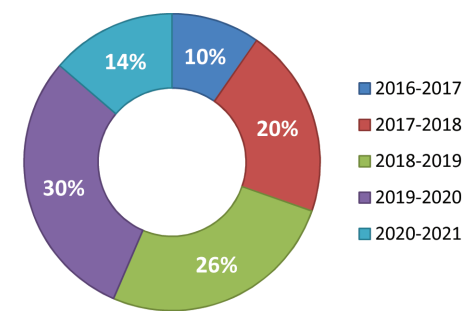

To facilitate the talented rural youth, scholarships are given, and concessions in hostel and transport so as to lower the burden on the middle class families and provide impulse to sustain interest to educate the talented rural youth.

Overall Entry Scholarships

Hostel Fee Concession w.r.t No of Students

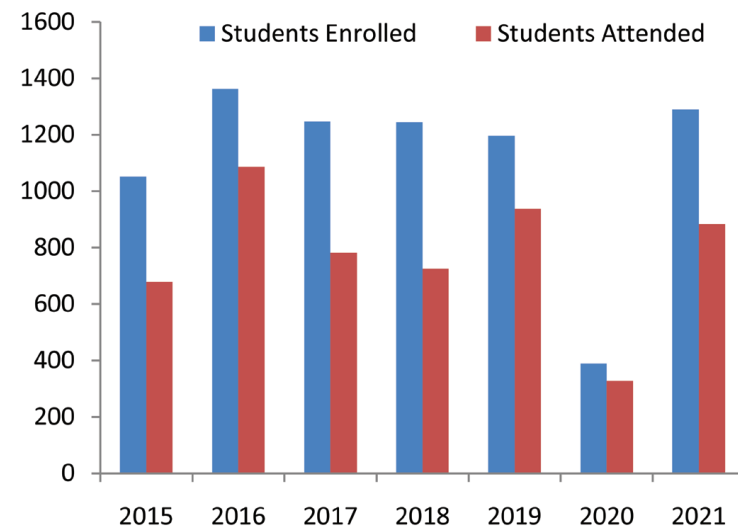

Extra Support to Rural Students

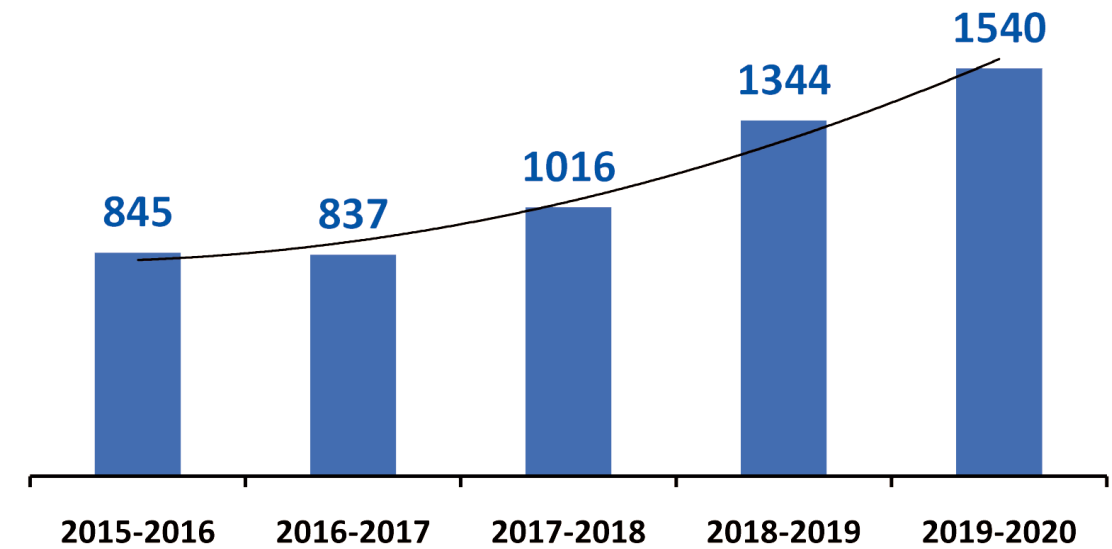

- Make them to understand and help them in Goal setting at the beginning of their academic journey.
- Improving student confidence levels by special counselling and make students to participate in various activities.
- Help students to gain confidence with mentorship of similar kind of alumni.
- Extra care is taken in all aspects to make students overcome inhibitions.

Bridge Course

Admitted students from various backgrounds are subjected to Bridge Course and English proficiency development with PET & BEC training and certifications.

Overall Placements

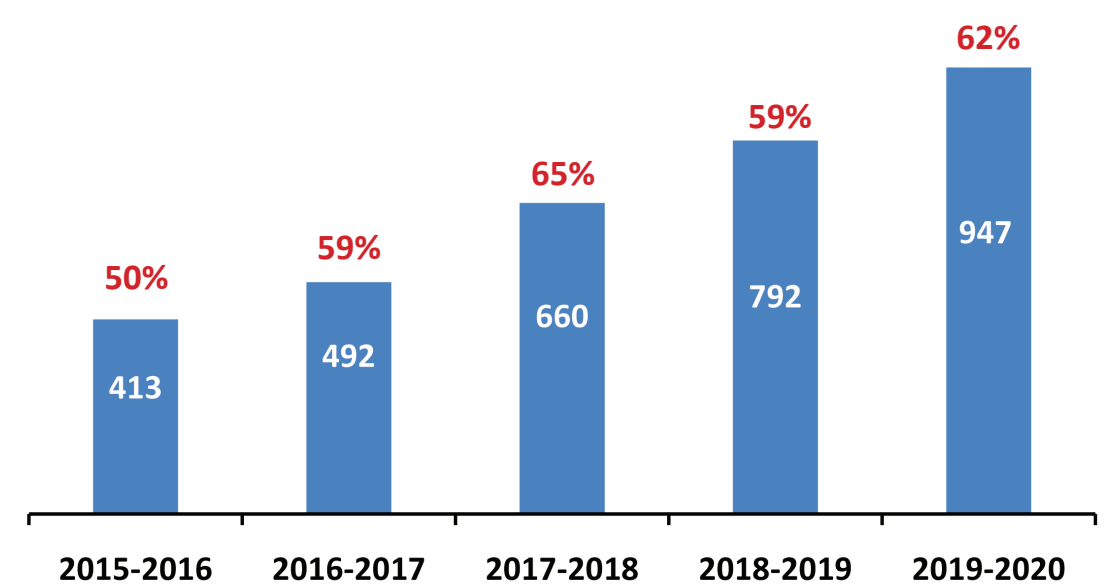

Our Training Partners

Placements

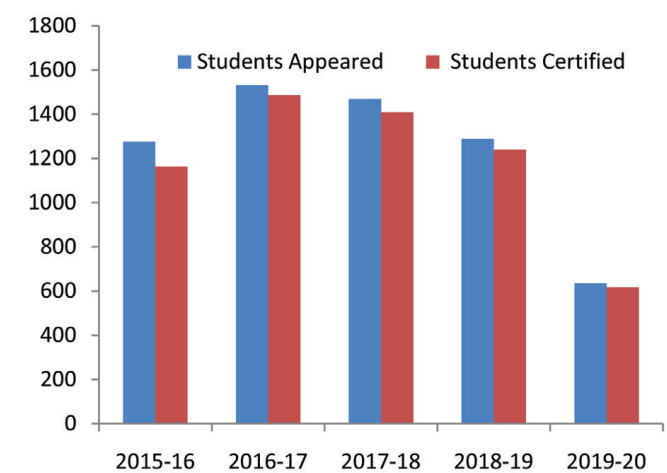

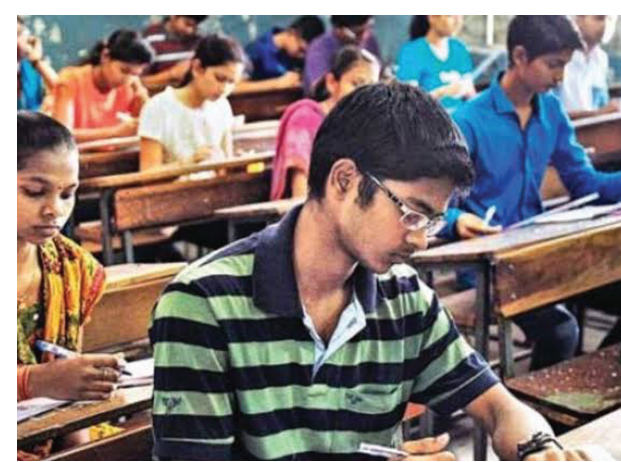

Around 60% rural youth are placed with good packages not only to lift their spirits but also the living quality of the student families.

Rural Students placed & their share in Total Placements

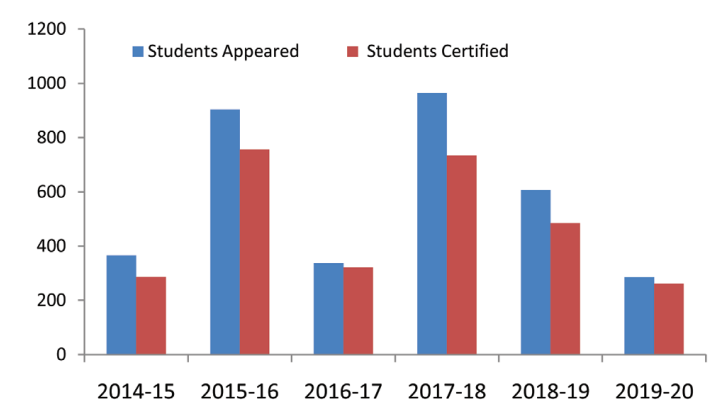

PET Examination

Preliminary English Test (PET) is an intermediate-level qualification and is designed for learners who have mastered the basics of English and now have practical language skills for everyday use. Preliminary English Test (PET) is one of the examinations in Cambridge English Qualifications path for improving language skills.

BEC Examination

Business Preliminary is also known as the Business English Certificate (BEC). This qualification shows employers that you can communicate in English in everyday business situations. BEC exam is designed to demonstrate applicants' ability to use English in the workplace and, like many other Cambridge ESOL exams, it is used by employers, universities and governmental organizations around the world.

Training to reach new heights

Training provided at different level and years to the students to make them placement ready and live smart. The students are supported with all necessary infrastructures to get trained in various aspects.
