From:

Prof. P. Siddaiah,

Principal,

Acharya Nagarjuna University College of Engineering and Technology,
ANU, Guntur, Andhra Pradesh.

Dear Dr. M. Y. S. Prasad,

Please refer to our detailed discussion yesterday regarding efforts of VFSTR in creating e-content for all the subjects of first semester to conduct online and blended mode classes. I found the efforts very interesting and very timely to keep the students engaged in a video class of 40 minutes to one hour.

It is generally known that a video session can keep the students engaged for 20 minutes in good attention. The efforts of your management and faculty during June and July of this year in creating e-content with Classroom teaching along with PPT, animations, videos, and faculty interventions is really a good initiative to keep the students fully engaged. Your management has correctly utilized the challenge of COVID-19 pandemic to create innovative teaching methods through online.

We are very much interested to use the e-content prepared by VFSTR in our University. I highly appreciate if you send me all the digital contents of all the engineering programs of your Institute to me, with permission to use the same. We plan to use these e-contents in future in conducting online / blended mode classes of our University Engineering College.

Thanking you in advance, and with regards

Yours Sincerely,

(Prof. P. Siddaiah)

Dear Dr. M. Y. S. Prasad,

Please refer to my earlier letter requesting for e-content of 1st semester courses of Engineering Branches. I received all the content on hard disc sent by you, I thank you very much for the same. We will be using this e-content in our 1st semester courses.

With best regards

Yours sincerely

(Prof. P. Siddaiah)
