Action Taken Report on the Feedback received for M.Sc. Chemistry Program (AY 2020-21)

Date: 10-09-2021

Stakeholder	Comments / Suggestions	Action Taken or Suggested
Students	More time for end semester exam preparation / revision sessions are suggested.	Planned to incorporate revision sessions.
Employer	Syllabus is huge, we can remove few topics which are at fundamental level, so that we can incorporate advanced level topics in-order to enrich the students with advanced learning skills.	Planned to re-structure the course contents as suggested by the stakeholders.
Faculty	To adopt and improve the self-learning, motivate the students to register in a few NPTEL courses and also department can offer the Honors degree depends on the merit.	Planned to conduct few add-on courses/ value added courses.
