Nil

Proceedings of the Meeting

The Chairperson welcomed all internal and external members and introduced the agenda of the meeting. The salient features of the NEP-2020 compliant R25-C25 curriculum were presented, including continuous learning, self-learning components, revised credit structure, and module-based course design.

Discussions were held on curriculum structure, L-T-P-SL distribution, assessment strategies, grading schemes, electives, and integration of SDG and IKS components.

Key Suggestions from Members

- Rename the course **Formal Languages and Automata Theory and Compiler Design** to **Theory of Automata and Compiler Design**.
- Categorize NPTEL courses year-wise based on student level suitability.

- Split the 2-credit course into two 1-credit courses: **Data Visualization & Analytics** and **Technical Paper Writing**.
- Implement **variable attainment thresholds** depending on course complexity.
- Conduct FDPs on **Reinforcement Learning, Autonomous Systems with IoT, and Agentic AI**.

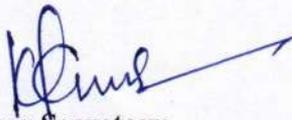

All suggestions were discussed and noted for implementation.

Recommendations and approvals

The bos members approved:

1. Revised r25-c25 curriculum structure, syllabus, and assessment schemes.
2. Honors streams and elective structures.
3. List of nptel courses (enclosed separately).
4. Integration of sdg and iks components in the syllabus.

There being no further points for discussion, the chairperson thanked all members and declared the meeting concluded.
