

## GENESIS OF THE UNIVERSITY

VIGNAN played a significant role in promoting high standards in the education sector and brought about a dramatic change in the socio- economic dynamics of the region.

Empowered by education, many families from the lowest rungs of the society have been uplifted to the higher income sections of the society.

As a result of the revolution brought about by Vignan in the field of education, A.P has become a rich pool of talent and the favorite hunting grounds for Global Companies. *To put it in a nutshell, what the present Knowledge Commission is proposing to do, Vignan envisaged it three decades ago.*

The Vignan Group entered the field of technical education in the year 1997 with the inception of Vignan's Engineering College (VEC) at Vadlamudi under Lavu Educational Society. This institution, living up to the VIGNAN tradition, has been producing extraordinary results right from the very year of its inception. With its student-centric approach, effective teaching – learning methods, close monitoring and innovativemanagement style, the institution has been winning laurels both at state as well as national level.

The Institution continues to strive to establish new standards in the field of technical education. By creating a strong infrastructure, conducive, inspiring & stimulating atmosphere, laboratories with modern equipment, and library with up to date literature, VEC has made it possible for the students of the surrounding rural areas to enjoy technical education of high quality on par with those admitted into national institutions of repute.

Within the short span of a decade the institution has been able to build a reputation for itself to compete with institutions of more than 25 to 30 years of standing. Every year the institution is able to place 70 to 75% of its outgoing students in various MNCs and of the remaining, 22 to 25% into national and foreign institutes of learning. All this has been possible due to the untiring efforts and single minded devotion of noted educational visionary Dr. L. Rathaiah, Chairman, Lavu Educational Society and the expert teams associated with the Institutions.

To accelerate this contribution to the nation on a wider plane and make qualitative higher education accessible to an even larger section of students, especially those hailing from rural agricultural families, the VEC, Vadlamudi is now upgraded to a Deemed to be University which is granted by MHRD, Government of India under section (3) of UGC Act.
