

DEPARTMENT OF MECHANICAL ENGINEERING

INTERNATIONAL CONFERENCE

ON EMERGING TRENDS IN MECHANICAL ENGINEERING (ICETME-2019)

Dt. 8TH and 9th November 2019,

Vignan's Foundation for Science, Technology and Research
(Deemed to be University)

A Two day International Conference on Emerging Trends in Mechanical Engineering (ICETME)-2019 was held on 8th and 9th Nov. 2019. The program was inaugurated by the guests and university officials by lightening the lamp on the stage followed by release of conference souvenir. Dr.Rizalman Mamat, Dean of Faculty of Mechanical Engineering, University of Malaysia (Pahang) and Dr.Dorotyya Guban, Scientist, German Aerospace Center has participated in the conference. Professor Dr Rizalman Mamat said during the inaugural address that the future will be for the Industrial Robots and that in future Automobiles, Agriculture, Hospitals, Software & Hardware sectors will make use of the Industrial Robots in large.

Dr Dorotyya Guban, another chief guest said in the inaugural address that the students should concentrate on soft skills and study their subjects with complete awareness. She further advised students that they surround themselves with good engineers so that they cultivate the habit of problem solving.

The conference has received a good response from the research fraternity. More than 150 participants from different institutions have attended the conference and presented their papers.

University Chancellor Dr K Rammurthy Naidu, Vice Chancellor Padma Sir Dr MYS Prasad, Rector Dr K Satya Prasad, Dean (R&D) Dr Srinivas Rao, Mechanical Department HoD & Convener of the conference Dr L S Raju, Vignan's Lara Institute of Technology and Sciences Principal Dr K Phanendra Kumar, Dean (SA) Dr.Rukhmini and other delegates have attended the inaugural session. The chief guests Dr.Rizalman Mamat and Dr.Dorotyya Guban were felicitated by the university officials for their contribution as keynote speakers.

The second day started with a keynote lecture by another guest, Dr.A.Kumar from National Institute of Technology, Warangal. Dr A Kumar said that the students have ample opportunities in 3D printing, and highlighted on various advanced manufacturing technologies in his keynote lecture. He appreciated the University for providing state of the art facilities for research oriented learning in the campus by investing on advanced equipment like multi axis robot and 3D printers.

The Two-day International Conference on Emerging Trends in Mechanical Engineering (ICETME) 2019 was concluded with a valedictory ceremony in the afternoon of 9th November 2019. Chief guests and university officials have congratulated the participants for taking part in the conference by presenting their research work and encouraged them to participate in more such events to build a good network of researchers. Chief guests have presented the participation certificates to all the participants and the program concluded with the vote of thanks presented to thank all the coordinators and sponsors for making this event a grand success.
